Construction is underway on the new Cromwell Middle School. The majority of the topsoil has been removed and structural fill is being added to prepare for the foundations, which is planned for mid-April. The construction schedule remains on track.

Ongoing discussions are being held regarding the site's soils and the high water line due to the 2023-2024 elevated rain falls. A plan will be put in place to mitigate the excessive water on the site.

The committee is in the process of requesting that P&Z review an updated fence option surrounding the bio-retention basin.

The discussion with the state around solar panels remains ongoing.

Strategic Plan Update

Community

Coffee bar (HE)

We have been leaving the cart until 4 PM and lots of people have been utilizing it with its new location (front facing at entrance). Staff have mentioned expanding our offerings and even having coffee classes. We may have a connection with a local coffee shop.

Clean out furniture in the children's area and history room (HE)

Some of the furniture has been auctioned, claimed and already picked up. We have been given the green light to dispose of the items that no longer work in the history room. We will be speaking with Transfer Station Superintendent about the best way to dispose of these items.

Dramatic Play Area (HE)

Hugely successful. The area is currently set up to look like a coffee shop. The theme will be rotated to keep it fun.

Technology

Update Microsoft (HE)

Staff have reached out to Nick from A&C to hear of the best way to do this. Initially we were purchasing from TechSoup but this option is not proving as advantageous as it once was.

Same as above. Staff have chosen models and are waiting to for input from A&C to determine recommendations as well as cost.

RE: APRIL TOWN COUNCIL REPORT

SHARON

I am submitting budget reports for fiscal year 2024 for the Town Council meeting on April 15th. The reports reflect activity through the end of March.

Expenditures are basically in line with expectations for this point in the fiscal year. I am keeping an eye on the Computer Services budget lines due to the increase in hours for dedicated IT and the increase in the cost of paper. Revenue is also on target compared to budget levels. Tax Collections and investments have exceeded budgeted levels. Investment revenue increase is mainly due to interest rates and the interest on the short term note for the new middle school.

Let me know if you have any questions or wish to discuss anything further.

Thank you.

Re: Extension of Tax Abatement to 10 Year Period-Springhill Suites by Marriott: 76 Berlin Road, Cromwell, CT (the "Property")

Dear Mr. Popper:

Thank you for the time and Information you have provided over the past few months regarding Cromwell's Economic Development Incentives Program. As you know, we enjoy the benefit of a 7 year tax abatement and we have requested that this be extended to 10 years. Here is a summary of where we are and what we are proposing:

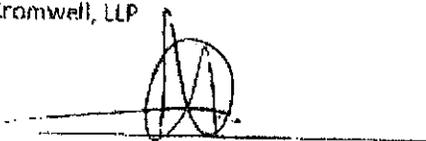

Existing:		Proposed:	
7 Year		10 Year	
<u>Years</u>	<u>%age</u>	<u>Years</u>	<u>%age</u>
1-2	100%	1-2	100%
3-4	75%	3-4	75%
5-6	50%	5-7	50%
7	25%	8-10	25%

As you know, the hotel opened during the Covid Pandemic in 2020 and due to business closures, travel restrictions and government shutdowns the Property was forced to close its operations for substantial periods of time that year. The following two years were ramp-up periods coming out of Covid and business was mostly inconsistent. 2023 was our true, first year of operations and the Property is progressing well.

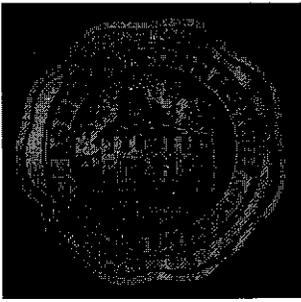

We are hereby kindly request that our 7-year abatement be extended to the current statutory maximum of 10 years. Thank you for your consideration and we look forward to continuing to operate a first-class Property in the town of Cromwell.

RE: Ava Realty Tax Abatement Request (76 Berlin Road)

Ava Realty was granted a tax abatement for 7 years by the Town Council Oct 14th, 2020, at the time the Town could only grant a 7-year abatement. The first year of their abatement was 2020 and the 2023 Grand List will be year 4 of their abatement. Since then, the law changed which now allows municipalities to give up to a 10-year abatement. Ava Realty has asked the Town of Cromwell to change their abatement from 7 years to 10 years.

Granting this change would have **a large negative impact on tax revenue** for the Town of Cromwell and will also open the door for Scannell Properties who currently has a 7-year abatement with the Town. (The Town's mill rate has been stable over the years so I did not project any future mill rate increases as that will only increase these numbers. I used the Town's current mill rate of 26.41. This does not include the amount the Fire District is also abating.)

Current Abatement:

If granted and Scannell Properties decides to request adding three years to their abatement the Town would lose over 2 million dollars of revenue based on their current abatement of 100%. But even reducing it to 30% would still have an impact of over \$600k.

RE: Tax Abatement 76 Berlin Road

After discussion with the Town Manager and Assessor and after reviewing the Assessor's memorandum, I concur, and recommend to the Town Council that the abatement not be changed from its existing seven (7) years to a ten (10) year abatement. The main reasons that I am not in favor of this extension are:

- The loss of revenue to the Town and;
- By granting this extension the Town is setting precedent

**PROPOSAL
TOWN OF CROMWELL
DIVERSITY, EQUITY, AND INCLUSION ENGAGEMENT**

PREPARED FOR: Anthony J. Salvatore, Town Manager
PREPARED BY: Judy Hartling, EMG, LLC
TARGET AUDIENCE: Cromwell Leaders and Community Members
DELIVERY: In-person
FEES: \$6,250
DATE: April 9, 2024

THE OPPORTUNITY:

The Town of Cromwell faces a reckoning in the aftermath of viral Reddit post alleging rampant racism within the schools. The town recognizes the critical importance of diversity, equity, and inclusion to ensure that all its residents feel welcome and empowered to thrive.

The Town of Cromwell seeks consultation and community engagement around the value of differences and the importance of respecting them, and the impact words and actions can have.

THE CONSULTANT

EMG, LLC offers inclusion, leadership, coaching, and communication consultation and facilitation to support organizational growth. Each EMG engagement is customized to best address the needs of the individual or organization.

Led by CEO and Founder Joelle Murchison, EMG is uniquely positioned to effectively navigate organizational dynamics and personal challenges which might prevent an individual or organization from maximizing its opportunities.

Joelle's and the EMG staff's extensive experience in government, education, non-profit, and in the private sector offers the insight needed to provide tailored services to the Town of Cromwell.

EMG CEO and Founder Joelle Murchison has spent more than two decades in diversity, equity, and inclusion work across multiple sectors, including serving as the inaugural Chief Diversity Officer at both Travelers Insurance and the University of Connecticut.

EMG's goal is simple: to ensure that strengths and opportunities can be leveraged to the greatest potential using diversity and inclusion as the foundation.

EMG shall work through the Town of Cromwell's Youth Services Administrator/DEI Committee's staff person, Sarah Calos, regarding EMG's services and sessions guiding the town's DEI Committee.

THE RECOMMENDATION:

EMG recommends:

- A guided public Community Conversation on Race (see details below).
- Sessions guiding the town's DEI committee to determine strategy, form partnerships, and otherwise work toward an inclusive community.

The recommended actions shall provide space for those with varying opinions to engage with one another respectfully.

Community Conversation on Race:

This 90-minute public town hall-style session will begin constructive conversation around race and the value of diversity to the town. It is designed to bring voice to the increased awareness and impact of racial inequity – both personally and professionally – within the community and school system. The program is structured into three major sections: Facts, Feelings and Future Actions.

- Facts – identify what we know, what we don't know, (and what we don't know that we don't know), and what we need to know about race.
- Feelings – explore how we feel and discover how others feel.
- Future Actions – plan how we as individuals and as a community can impact systemic change.

Advisory sessions:

(2) 60-minute DEI Committee advisory sessions with Joelle Murchison to help guide the committee as it continues and amplifies the work at hand.

FEE: \$6,250

Fee schedule to be determined in conjunction with service dates. \$2,000 due upon contract signing.

Breakdown:

- 90-minute Community Conversation on Race with Joelle Murchison – \$3,250
- (2) one-hour advisory sessions with Joelle Murchison and the town's DEI committee – \$3,000

Terms

Client may cancel or reschedule service more than 30 days prior to the agreed upon date of service without penalty. EMG understands that schedules change and will attempt to work with its clients to reschedule services as needed. However, if for any reason the client cancels or reschedules within 30 days of a scheduled service, the client is responsible for a 20% fee. If the client cancels within 14 days, the client is responsible for a 30% fee. If client cancels within one week, client is responsible for a 50% fee.

Client will incur a 10% late fee for payment more than 30 days past due and for each 30 days thereafter.

Juneteenth: Middletown's 4th Annual Celebration of Black Liberation

Hello Friends,

The huge success of this event, titled “**Juneteenth: Middletown's 4th Annual Celebration of Black Liberation**”, will be in large part due to our sponsors and donors. Similar to 2023, there will be festivities all month long, leading to a Juneteenth day parade and festival! We are asking you to lend your financial support to this wonderful event in exchange for valuable sponsorship benefits. Established in 2021, Middletown Ujima Alliance's mission is to work collaboratively to foster an authentic sense of diversity, equity and inclusion in an effort to uplift, build and restore unification within Middletown. The purpose of Juneteenth is to commemorate the ending of slavery in the United States by celebrating freedom, educating, and engaging members of the community in an arts-themed celebration.

Here are some details about the event:

Samantha Rosa will be sworn in on April 10, 2024 at 10:30 AM in the Cromwell Belden Room. Samantha Rosa is a certified police officer with 2 years' experience with the Simsbury Police Department.

The department is finishing a background on another certified officer. I expect the officer to be hired by the end of April. This will be our 29th officer and the department will be fully staffed.

The Easter Bunny Meet and Greet was on March 23, 2024. We had approximately 120 kids come to see the Easter Bunny. The event was well attended. I would like to thank Officer Jones, Record Clerks Caroline Wilcox, Lori Ouellette, and Administrative Assistant Margie Dellafiore for volunteering. I would also like to thank the Easter Bunny for volunteering their time to attend the event.

Kind words from citizens:

I received a call from a resident praising Officer Visconti. Officer Visconti was sent to talk with her adult son, who was having a breakdown. Officer Visconti was able to deescalate the situation and calmed her son down. This resident praised the handling of the situation and the fact you "made him feel like a human."

He also attended the meetings of the Economic Development Commission and Redevelopment Agency. Stuart plans to find out which properties are available and post them on the Town website in addition to compiling a list of available space for lease or rent. The Planning Department also recently updated the list of businesses on the Town website; he took down 30 that are no longer here, but added 50 more. Councilman Waters informed the Council that the Historical Society met which is great because they have not met in a while due to COVID concerns.

Mayor Demetriades reported that the Board of Education budget came in at 6.3% increase with 4.4% being contractual. He also informed the Council that the Planning and Zoning Commission did not take any action within 65 days on the Field Committee's application for Athletic Facilities Improvements at the High School, therefore, the project is automatically approved.

4. Discussion and possible action regarding State Bonding for Town Projects
Town Manager Salvatore stated that we are looking to apply for \$600,000 to finish Pierson Park. He explained that we submitted a request for two million dollars last year for Pierson Park Updates and we received 1.5 million. The engineering estimate to complete the project is \$600,000. The Town Manager explained that this phase of the project includes a parking lot expansion and a larger pavilion in the southwest corner.

Town Manager Salvatore said that we are also looking to apply for one million dollars for drainage projects. He informed the Council that one million dollars would make the projects shovel ready. See Attachment C.

Mayor Demetriades asked Ann Grasso of the Cromwell Creative District (CCD) to come present their project that they petitioned for. They are asking for funding to rehabilitate the Sewer Building. See Attachment D for the presentation.

Town Manager Salvatore informed the Council that he did some research and was told that CCD can apply directly to the State for the funding as a nonprofit organization. He suggested that they apply directly rather than through the Town. Ms. Grasso asked the Council if they would provide a letter of support to submit with CCD's application.

MOTION made by A. Waters and **SECONDED** by J. Henehan to support CCD's project and to submit a letter of support to endorse that.

- There will be a promotional ceremony on Tuesday, February 20th at 2 p.m. in the Belden Room for Detective Perlini being promoted to Sergeant. He invited the Council to attend.

K. PUBLIC WORKS DIRECTOR'S UPDATE

Public Works Director Lou Spina was in attendance to present his report. He added the following updates:

- He attended a meeting with Guaranteed Clean Energy with the Board of Education via Zoom. They prioritized projects and we provided them with two years of our utility bills. It turns out our largest benefit will be in the form of energy upgrades. The Town has been very proactive and made many energy upgrades over the last few years therefore, there will not have be a significant impact.
- Saturday, April 20th is Earth Day. We will be looking for non-profits and volunteers to assist in cleaning up the Town. The Public Works Department will coordinate this.
- The Curbside PILOT program is going well. It has been great for the elderly and for people who do not have pick up trucks to transport large items.

L. CITIZEN COMMENTS

Ann Grasso, 70 Strand Circle informed the Council that the Sewer Building is 3,200 Square Feet.

James Rude, 25 High Ridge Road read the attached document into the record. See Attachment E.

The Town Council recessed at 8:52 p.m.

The Town Council reconvened at 9:00 p.m.

M. UNFINISHED BUSINESS

1. Discussion and possible action regarding the status of the Multi-Purpose Field Project and the Athletic Field Committee's Charge

There were questions around the automatic approval of this application. Mayor Demetriades explained that a meeting was scheduled where this application was on the Planning and Zoning Commission agenda for consideration. However, there was a snow storm, the meeting was canceled and never rescheduled. Therefore, according to State Statutes, when a Planning and Zoning application has not been acted on within 65 days of it being submitted, it is automatically approved. Mayor Demetriades suggested we have a public hearing on this. He asked if it was possible for the Town to withdraw the application, relinquish the approval and resubmit it to the Planning and Zoning Commission so that it goes through the proper process. The Council agreed that the application should go through the proper process and requested that the Town Manager check with the Town Attorney to see if the application can be withdrawn and resubmitted.

2. Discussion and possible action of Climate and Culture Study Town Council Recommendations

Mayor Demetriades informed the Council that he talked to the Town Attorney regarding the monitors in the Town Manager's Office. She suggested that the Council approve and adopt a monitoring policy. He proposed that a subgroup of the Council meet to work

on developing this policy and asked if any councilors were interested. It was determined that the subgroup will consist of Mayor Demetriades, Councilwoman Aurigemma, and Councilwoman Luna.

Councilman Waters read the attached letter into the record. See Attachment F.

N. NEW BUSINESS

1. Review and Approve Updated Cromwell Police Department Rules of Conduct

Chief Sifodaskafakis was present to answer questions of the Council regarding the updated Rules of Conduct. He explained that many of the updates were made for accreditation purposes. He said that both unions have reviewed the document and agreed with it. Councilwoman Luna noted some grammatical changes.

MOTION made by B. Bonneau and **SECONDED** by J. Henahan to adopt the updated Cromwell Police Department Rules of Conduct to include grammatical changes made by Councilwoman Luna.

All in favor.

2. Town Manager's Goals and Objectives

Councilwoman Aurigemma asked that the Town Manager discuss all litigation or prelitigation with the attorneys on the Council (herself and Mayor Demetriades).

Councilman Henahan explained that we have done a lot of work on the recommendations as a result of the Climate and Culture Study and asked that we check in periodically with those items to see the progress over 2024. If other recommendations come up, we can add those to the list as well.

Councilman Waters asked that the Town Manager continue to adhere to what was recommended as a result of the Culture Study. He would like to see improvements made by the Town Manager on his own and report back to the Council so we stay informed with what he is doing.

Councilman Bonneau agrees with Councilman Waters' goals for the Town Manager. He would like the Town Manager to work on employee relations and management in general (all management, not only Town Management).

Councilwoman Luna asked that the Town Manager:

- Continue the planning and installation of sidewalks throughout Cromwell, where appropriate and necessary
- Continue to assist and encourage Cromwell Creative District with the revitalization of our town's center
- Encourage the revival of the Riverport Festival, perhaps occurring biennially, and
- Resurrect the previous design plans for a community senior center that were drawn up several years ago

Councilwoman Dabrowski asked that the Town Manager:

- Continue to adhere to the recommendations of the Culture Study and keep the Council apprised of progress

- Implement the Plan of Conservation and Development (POCD)
- Long-term Capital Improvement Projects
- Guide our decision making as a Town Council
- Increase employee and town morale
- Maintain certifications

Synopsis

**CCD's request to renovate vacant DPW Garage
Adjacent to Police Station, County Field Road, Cromwell**

North side of DPW garage, January 2024

East side of DPW garage, December 2023

Town residents painted "Paint by Number" Mystery Mural installed
360, 8" x 8" tiles painted to create this 10' x 16' mural highlighting diversity

JUSTIFICATION OF REQUEST FOR FUNDING

1. CCD is spearheading this renovation request on behalf of all nonprofits which do not have a place to hold meetings or small events for up to 100 people.
2. The vacant Cromwell DPW garage is adjacent to Pierson Park, Town Public Parking, Police Station, and in the center of both the Creative District and the newly formed Cultural District making it visible, easily accessed and safe.
3. This masonry building was part of the Silver/Petrucci Associates study the Town paid for in 2021. After thoroughly reading their report, CCD hired a registered, out of town engineer to review the stability of the building before moving forward. Jonathon Comtois, P.E., Modern Structural Engineering, found the building sound except for bricks in the upper west corner and he offered they can be easily repaired. Initially used by the Pierson family to store a vehicle to help with coal delivery, this building has meaning for Cromwell. Based on findings from both companies, CCD felt the investment in plans for renovation was worthwhile.
4. An anonymous donation of \$350,000 was offered to the Town of Cromwell in 2022, the bulk of which remains in a DAF fund, and a smaller portion in CCD savings account earmarked for this renovation.
5. July 2022, CCD presented documents to Town Council supporting the ability to renovate the garage based on architectural, mechanical and electrical drawings defined in 2021. Pricing was obtained from qualified companies willing to reduce pricing for this worthy project for \$350K, but not at prevailing wage. Renovation could have been completed including one ADA bathroom and one sliding door. Space for a second ADA bathroom and second sliding door were to follow as money was raised.
6. The Council unanimously approved, with one abstention, due to conflict of interest, moving forward if the necessary funds could be raised within three years, to renovate using prevailing wage.
7. Substantial economic increases plus prevailing wage bring the current cost estimate to over 1 million, which does not include any cabinetry or furnishings. Also, at a meeting in November 2022, the Town Manager stated that the roof would have to be replaced as part of the project. The roof is not leaking, and was never a part of the initial proposal accepted by the Town Council. However, it is old and it will be beneficial to replace the roof during the renovation, which also increases the cost.
8. CCD's request to the Town Council asked that nonprofits have first choice for use of the building. However, when not in use, CCD offered that the Senior Center and Rec. Departments could use for their programming, given the limited space in the Town Hall.

TIMELINE

1. 2015-2018: requests to Cromwell Arts Alliance (CAA) to consider including Creative Districts as a part of CAA. Creative Districts were implemented by the National Endowment for the Arts in 2010, and many States adopted the concept that cities with blighted urban areas and towns with forgotten Main Streets become revitalized.
2. 2019: Cromwell Creative District (CCD) became a sub-group within CAA.
3. 2019: CCD decides to become its own nonprofit having learned CAA was not interested in writing for grants.
4. 2019: CCD hires a professional to paint approved mural on north side of DPW garage.
5. Dec. 2019 receives Federal nonprofit status.
6. 2020: CCD requests right of first refusal for use of DPW garage once Sewer Department moves to new facility on County Line Drive. This was granted.
7. 2021-2022: plans and pricing developed for renovation of garage as a "black box" assembly space for up to 100 people.
8. July 2022: CCD presents request to renovate DPW to Town Council including request for STEAP grant. Council approves 3 years to obtain funding.
9. August 2022: Stuart Popper writes for STEAP; not awarded.
10. 2023: basically a municipal election year with continuing discussions with Town Manager about process, prevailing wage and the request for implementing the State designation of a Cultural District - which is the same as a Creative District except a different name allowing for funding streams from Humanities and Tourism.
11. 2024: request to Matt Lesser and Christy Carpino to help gain the necessary funding for this important reuse of a building.
12. Petitions requesting Cromwell resident support were offered to various groups during the December holiday. 230 signatures, enough for a referendum, are included.

APPRECIATION FOR ALL WHO HAVE HELPED

CCD is grateful to all who have spent countless volunteer hours supporting the endeavors listed above. It is not possible to name everyone, however, we are grateful for the support of Cromwell Town Staff, State Staff, our regional support chair Eric Dillner, Shoreline Arts Alliance, and the teams providing the pro-bono renovation drawings and pricing for renovating the DWP garage into an ADA accessible building for nonprofits meetings and small events.

Special thanks to Mayor James Demetriades for bringing this worthy project to the attention of our elected State legislators, Senator Matt Lesser and Representative Christy Carpino - who are the ones who can make this dream come true.

How Renovating the Sewer Garage Improves Economic Development

Economic Development:

Economic development is the process of improving the standard of living and well-being of the people in an economy. Economic development and economic growth aren't the same. The main indicators that measure economic development are: HDI - Human Development Index, HPI - Human Poverty Index.

Economic Growth:

Economic growth refers to an increase in the size of a country's (town's) economy over a period of time. The size of an economy is typically measured by the total production of goods and services in the economy, which is called gross domestic product (GDP). Economic growth can be measured in 'nominal' or 'real' terms.

Renovating the vacant Sewer Garage: improves both areas of economics by clearly benefiting and improving the well-being of residents, and making Cromwell more attractive to businesses. Cromwell Creative District (CCD) requests on behalf of all Cromwell nonprofits, with right of first refusal of building use, and when vacant, for Rec, Seniors, Youth, and Human Services use.

Location: the adjacency to the about to be renovated Pierson Park, the Police Station, the Fire Station, historic Main Street, the CT River with its two parks, continues to make this area community complex and it is adjacent to the Town public parking lot. As well, the reuse of an existing brick and block building is environmentally sound.

The non-specific use of this building, i.e. the large open space with an ADA seating capacity of 100, provides for multiple types of use and events including both income generating and non-income generating activities. Architecturally known as a "black box", this open room concept is highly flexible for uses currently defined as well as future ideas.

CCD's Mission Statement: focus is on business!

Economic Development programs: some are revenue generating and aid in tourism

Nonprofits have no space to meet or hold events, e.g. art and craft classes, art gallery exhibitions, dance lessons, music gatherings, lectures and poetry, eventually movies and digital teaching through large TV monitor and CCD Business Associates meetings are some examples.

Economic Growth ideas: rental for private parties, e.g. birthday parties held indoors due to New England weather, Riverport Festival indoor ticketed events, football after parties, vendor events, e.g. tag sale, craft sales, tourism events highlighting Cromwell's features.

To Whom it May Concern:

We are writing in support of the Cromwell Creative District's efforts to obtain funding to help renovate the Cromwell Municipal Building known as "The Sewer Garage."

The Middlesex County Chamber of Commerce is a dynamic business organization with over 1,980 members. Our chamber represents businesses of all sizes and from all industry sectors, from large corporations, to micro businesses and entrepreneurs, and we are committed to promoting a positive business climate in Middlesex County. In addition to being an effective business organization, our chamber strives to be a strong community organization.

The Cromwell Creative District promotes, engages and builds a strong community which attracts businesses and visitors to the area through creative programs, tours, and special events.

The renovation of this property represents an opportunity to bring new life to a building located in the heart of the district, enabling local non-profits to have a dedicated meeting place which has been an obstacle in their growth opportunities and provide a tremendous service to the community.

The Middlesex County Chamber of Commerce is a strong partner with the town of Cromwell on important economic development and other community issues. We are happy to support this funding request and urge you to look upon it favorably.

Thank you for the opportunity to support this important topic.

Cromwell Town Council Meeting February 14, 2024

Public Comment

James Rude, 25 Highridge Road

Good evening.

Minutes: I respectfully request that the minutes from the January 10th Town Council meeting be expanded to include the third item I discussed- the need for thoughtful consideration by the newly elected Town Council of such matters as the response to the culture survey, as well as the attachment of my 1/4/24 email to Town Council as noted by the Mayor at the meeting.

Culture Survey: I want to thank the Town Council for beginning a meaningful discussion of the real matters of substance related to the work environment at Town Hall. On the discussion about the location of monitors for the surveillance cameras, I find it astonishing and astounding that many months after the July 2023 issuance of the culture study report we learn at the January 10th meeting that there are security camera monitors in locations in addition to the Town Manager's office- including the Police Department and an undisclosed number of employee cellphones. This lack of transparency is disappointing at best. I respectfully request continued development of a revised, meaningful approach to improving employee relations at Town Hall which considers the surveillance camera monitors issue as well as the other morale issues noted in the culture study report.

Town Manager's Goals & Objectives for 2024: As the Town Council considers the goals and objectives for the Town Manager for the coming year, I hope that the importance of full transparency with elected Town officials and Town residents **AND** the importance of a healthy, trusting Town Hall workplace are specifically addressed.

Thank you.

Town Council,

I am writing and urge you to act on the lies the town manager, Tony Salvatore made in the last town council meeting when talking about the building cameras. The town manager categorically said that no cameras he monitored were in the work spaces of town employees and they were only in public spaces. Everyone knows, except for you, that the cameras watch the mechanics area and the public works garage. He watches the mechanics work and the employees gather while in the building. All of these areas are not public. Is anywhere in the public works building public?

The town manager has lied to you. Will you hold him accountable? Do all employees get to lie now? What else is he lying about? He should be held accountable and fired.

I can't sign this because there will be retribution.

SPECIAL MEETING – BUDGET WORKSHOP MINUTES**

Wednesday, March 6, 2024 - 4:30 p.m.

Present: Mayor James Demetriades, Julia Aurigemma, Brian Bonneau, Stacy Dabrowski, Jack Henehan, Paula Luna, Al Waters

Also Present: Town Manager Salvatore, Chief Sifodaskalakis, Captain Penn Finance Director Sharon DeVoe, Assessor Shawna Baron, Tax Collector Brian Stermer, Human Services Director Amy Saada, Youth Services Administrator Sara Calos

A. CALL TO ORDER

Mayor Demetriades called the meeting to order at 4:30 p.m.

B. CITIZEN COMMENTS

Julie Fitts Ritter, 23 Timber Hill Road, Board of Assessment Appeals (BAA) member, explained that Shawna attends BAA meetings often. She tries to reach a fair resolution for everyone. She makes an effort to meet with residents who have an appeal to work it out before it gets to the BAA. She knows the laws and statutes, understands them and puts them into action fairly and consistently. She does have to be tough in this position but she does it with integrity. She is an asset. If giving her a raise keeps her here, we need to do that.

Gayle Ivy, 2 Bayberry Court, was in attendance and informed the Council that she has worked in three Youth Services departments in Connecticut and the one here in Cromwell has impressed her. She said she is especially impressed with Amy and Sara. She continued, they do a great job with the families and children. She hopes that the Council supports their budget because of the amazing job they do for the community and for the future.

C. DISCUSS AND APPROVE AMENDED PURCHASING POLICY

The Town Manager and Mayor explained that after a meeting with the Board of Education it was determined that all Board of Education Capital projects will go through the Town and be added to the Town's Capital Improvement Plan which resulted in this proposed amendment to the Town's Purchasing Policy.

MOTION made by B. Bonneau and **SECONDED** by A. Waters to approve the proposed amended Purchasing Policy.

All in favor.

D. BUDGET WORKSHOP

1. **Any unfinished business from March 4, 2024 Budget Workshop**

Police Chief Sifodaskalakis and Captain Penn were in attendance to answer questions of the Town Council on the Public Works budget. Chief Sifodaskalakis presented an overview of his budget.

There was a brief discussion regarding the Chief's request of adding a Lieutenant to the Department. He explained that the Town Manager denied that request, but agreed to add an Administrative Sergeant as that position is already approved within the Police Union. Chief Sifodaskalakis said that while he would have preferred the Lieutenant position, he supports the Town Manager's budget with the added position of Administrative Sergeant.

MOTION made by A. Waters and **SECONDED** by J. Henehan to approve the Town Manager's Budget Recommendation of \$4,357,671.

In favor: S. Dabrowski, J. Henehan, P. Luna, A. Waters

CNR ITEM

Digitization of Existing Residential and Commercial Building Plans and Paper Records

- The Town Manager explained that he does not support this only because we are expecting COG to come to us within 6 months offering this service for a nominal fee. Once we have the fee information we will bring it to the Town Council for approval.

– **9. Revenue Collections Department**

MOTION made by J. Henehan and **SECONDED** by A. Waters to approve the Town Manager's Recommended Budget in the amount of \$170,423.

All in favor.

– **10. Assessor's Office**

Assessor Shawna Baron was in attendance to present her budget to the Council and explain her request for a wage increase. She referenced the letter she presented to the Council with her budget. There was a brief discussion regarding this request including, pay scales, steps, longevity payments, etc. The Town Manager explained that he feels highly about Shawna and about her capabilities but does not support this request which is why this increase was not in his Assessor Budget recommendation to the Council. He explained that he asks all directors to get involved in their prospective fields. He said all of his directors do an outstanding job

and if this were to pass, he would have to look at all directors' salaries. After a brief discussion, it was decided to table this matter.

K. CITIZEN COMMENTS

Rich Waters, 84 South Street expressed that installing the gate across both sides of the trestle is a dangerous thing to do, sometimes ambulances go through there. He said we have had signs there for many years, why spend \$9,000 on the gate? It will cost less money for someone to continue to put the signs up as needed. He questioned why the roads have been paved all the way to the Town Manager's house when there are other roads that need paving and have not been paved yet. He said many of those roads would have been fine with crack sealing instead of being paved.

The Town Manager called a point of order and explained that the roads in Town that are paved are according to the Pave Management Study handled by the Public Works Director.

Brian Stermer, 16 Sovereign Ridge Road said he was here in support of the Assessor. He explained that the Assessor's Office and Tax Office work together very closely. He said Shawna is very helpful and the most knowledgeable person on QDS. He continued, Cromwell has a great reputation for having such a skilled Tax Assessor. He has had a favorable experience working with her and he asked the Town Council to take this into consideration when deliberating the budget and her request.

Lisa Klein, Lions Club President, 19 Briar Court was in attendance tonight to notify the Council that they successfully gathered 1,000 lbs. of plastic! She was excited to present the Town of Cromwell with a bench. She asked if they could put a dedication on the bench to Carl Banic who was the longest serving member of the Cromwell Lions. She asked the Town Manager to give some thought about the color and location of the bench. She also encouraged the Mayor to reach out to the Lion's if they need any help promoting inclusivity.

Julie Ritter, 23 Timber Hill Road, was in attendance to speak on behalf of Assessor Shawna Baron. She felt that tabling Ms. Baron's request for a raise was insulting. She stated that Ms. Baron is well respected all over the State. She urged the Town Council to show her and tell her she is valued. In her experience, she would do whatever it takes to keep a great employee as it will cost more money in the long run.

James Rude, 25 High Ridge Road read the attached document into the record. See Attachment C.

Ann Grasso, referenced the attachments she provided to the Town Council. See Attachment D.

The Town Council recessed at 8:19 p.m.

Mayor Demetriades took the Assessor's Request off the table. He explained this item was tabled because we needed to decide and think about the overall impact.

Councilman Waters explained that Assessor Shawna Baron contacted him at his house asking for his support in her upcoming budget request for a wage increase. Councilman Waters felt this this was unprofessional.

Assessor Shawna Baron explained that she only contacted him to make him aware that this was on the agenda for that evening's meeting.

Discussion took place regarding how to properly vet this without it affecting the organizational structure for all other non-union employees. It was expressed by the Council that Assessor Shawna Baron does a great job and is a valued employee and that her years of service are commendable and appreciated. The Mayor explained that the Council really does care; he explained that he has had numerous conversations and has conducted significant research regarding this request. However, changing the wage schedule for the position or moving it to another wage classification would throw a wrench in the entire process unless the Council reviewed the salaries of all department heads and non-union employees.

MOTION made by A. Waters and **SECONDED** by J. Henehan to approve the Town Manager's Salary Recommendation of \$122,073.

The Mayor explained that this is settlement money and some surrounding towns were looking to collaborate, however, the Town Manager is working with our Human and Youth Services Departments to hire someone using these funds to address this crisis. The Town Manager informed the Council that we currently have \$53,000 in the settlement fund and that we will receive approximately \$30,000 per year for at least 18 years. Chief Sifodaskalakis addressed the Council and expressed his full support for this position and said it would be beneficial for the Police Department.

B. CITIZEN COMMENTS

Rich Waters, 84 South Street is opposed to installing a gate at the trestle in the amount of \$9,000. For years his brother, Al Waters, has been complaining about water coming over the road. He explained that sewer water containing E.coli comes over the road and runs off into the field across the street. We are going to have mosquitos and all that is being done is putting a locking gate over the road. This is dangerous, it's an emergency area and ambulances go through. RE: WELLNESS INITIATIVE AND EMPLOYEE RECOGNITION UPDATE

Wellness Initiative: The goal of the Wellness Initiative is to promote wellness to Town employees through a variety of topics such as Nutritional, Physical, and Mindfulness.

A survey was sent out to employees on 2/29/2024 to better gauge what topics employees are interested in and what activities they would want to participate in. From this survey we learned that employees are most interested Physical and Nutritional topics.

Our first activity was centered around nutrition. A Healthy Snack Break was held on 4/1/2024 where employees could come down and grab a healthy snack along with two educational flyers on Healthy Eating and Antioxidants provided by Cigna. We had a great turn out with about 30 employees participating.

Our next focus will be on the physical side of wellness. We are hoping to have employees participate in a Walking Challenge sometime in the summer. More on this to come.

Employee Recognition: The Employee Recognition program was created to recognize employees when they hit milestone anniversaries in 5-year increments. Employees are invited down to the Human Resources office where they receive a Certificate of Appreciation and a gift directly from the Town Manager. We also share photos of the employees on Facebook to publicly acknowledge their great achievements.

This program was retro-ed back to January 2024 and so far, five (5) employees have been awarded for their years of service covering January through March. Those employees are listed below:

Salvatore Nesci – Public Health Dept: 5 Years on 1/2/2024

Emily Mills – Library: 5 Years on 1/2/2024

Danny Ouellette – Highway Dept: 15 Years on 2/9/2024

Shawna Baron – Assessor: 20 Years on 3/1/2024

Jeremy Perlini – Police Dept.: 10 Years on 3/24/2024

We look forward to continuing to recognize employees for their hard work and dedication to the Town of Cromwell.

Subject: Cromwell Creek at South Street - Possible DEEP Permitting

Good Afternoon Jon,

Please see below for a summary the Land and Water Resources Division drafted given what was discussed during the meeting and the information and materials provided via email.

Town of Cromwell – Cromwell Creek at South Street - Possible DEEP Permitting

Should the Town of Cromwell decide to move forward with **dredging** of Cromwell Creek, please be aware that the following DEEP permit applications will likely be required. These are in addition to any local and/or federal permit applications. Complete applications do not guarantee unconditional approval. All projects are reviewed for consistency with the pertinent statutes and regulations and conditions may be added to restrict activities to prevent or offset impacts to water resources. Furthermore, depending on the extent of impacted wetland and watercourse area, compensatory mitigation may be required by both USACE and CT DEEP.

Non-Consumptive Water Diversion Application & Instructions

A DEEP Non-Consumptive Water Diversion permit is required when there is a physical alteration or modification of a surface water(s). When making a decision on a water diversion permit application, the DEEP must consider those factors listed in the authorizing statutes and regulations including, but not limited to, the environmental effects of the diversion and whether the proposed diversion: 1) is necessary, 2) is consistent with long-range water resource management, 3) is consistent with the state plan of conservation and development adopted pursuant to part I of Chapter 297 of the Connecticut General Statutes, and 4) will not impair proper management and use of the water resources of the State.

The application process includes a required 30-day public comment period. There is a cost associated with the publication of the Notice of Tentative Determination (NTD) in a newspaper of general circulation in the area to be impacted by the activity. In addition, the application fee for a Non Consumptive Water Diversion permit to dredge Cromwell Creek, which has an approximate watershed area of 0.82 square miles as measured in USGS StreamStats at the south end nearest the Mattabassett ROW, would be \$4000. With a 50% municipal discount, it would be \$2000. See below for the StreamStats Report.

401 Water Quality Certification (WQC)

A DEEP 401 WQC is required of any applicant for a federal license or permit who seeks to conduct an activity that may result in any discharge into navigable waters, including wetlands and watercourses. The applicant must obtain a 401 WQC from DEEP that the discharge is consistent with the federal Clean Water Act and the Connecticut Water Quality Standards. In deciding, DEEP must consider the effects of the proposed discharges on ground and surface water quality and existing and designated uses of waters of the state. As with the water diversion application process, a 401 WQC includes a required 30-day public comment period. While a WQC application has no fee, there is a cost associated with the publication of the NTD.

Per the USACE Water Quality Certification for the State of Connecticut, “activities within a FEMA established floodplain that would adversely affect the hydraulic characteristics of the floodplain” are not eligible for Section 401 WQC under the general permit certification and require an individual Section 401 WQC. An adverse effect to hydraulic characteristics includes an increase in flood water surface elevation, an increase in flood flow velocity or a restriction of flood flow conveyance in a manner that would impact upstream, downstream or adjacent property. For the purposes of the Section 401 review, you would use the same application form as the Non-Consumptive Water Diversion (see link above). A Section 404 application sent to USACE will also likely be required.

Flood Management Certification (FMC)

Should the Town pursue State funding to accomplish remediation of the flooding on South Street, it will require an application to be reviewed by an engineer in the Land and Water Resources Division to ensure consistency with the Flood Management Act. DEEP approval of a certification, or an exemption from such approval, is required for all State (funded) actions in or affecting floodplains or natural or man-made storm drainage facilities. In deciding to approve or reject an FMC, the DEEP must consider whether the proposed activity is consistent with state standards and criteria for preventing flood hazards to human life, health or property and with the provisions of the National Flood Insurance Program (NFIP) and municipal floodplain regulations; does not adversely affect fish populations or fish passage; and does not promote intensive use and development of flood prone areas. This application has the same instructions PDF as the Non-Consumptive Water Diversion application (see link above); but has no fee. FMC applications are typically completed and signed off by the State agency granting the funding.

FEMA Letter of Map Revision (LOMR)

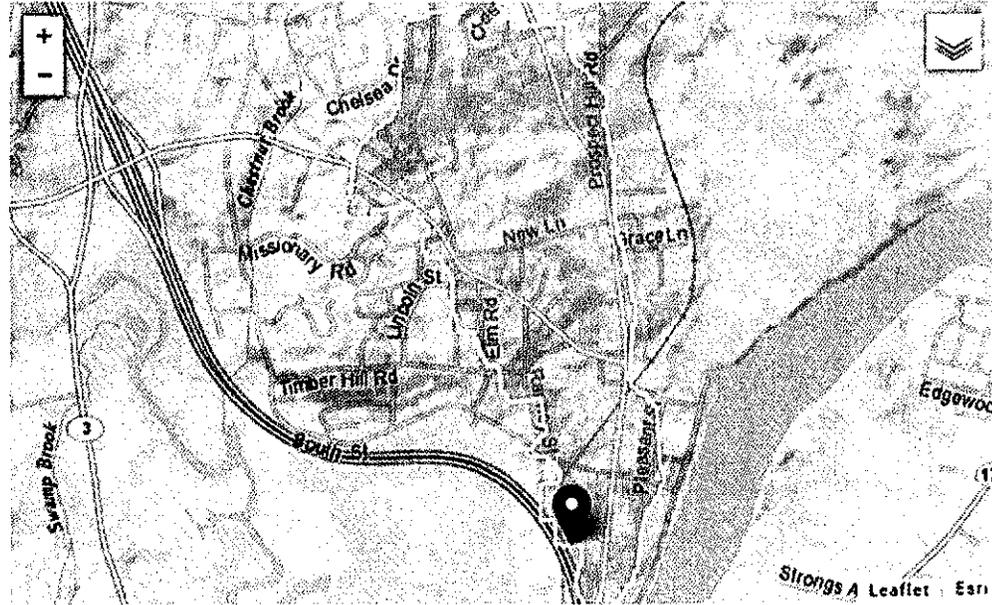

Dredging, grading, and other man-made changes (e.g., a new culvert) to the mapped regulatory floodway and 100-year floodplain would require a letter of map revision (LOMR) from FEMA to officially document changes to conveyance, base flood elevations (BFE), and floodway and flood zone boundaries. Dredged materials cannot be deposited into the mapped regulatory floodway without appropriate engineering analysis to determine that the water surface elevation would not rise as a result of this encroachment. FEMA’s MT-2 form is used to apply for a LOMR, <https://www.fema.gov/flood-maps/change-your-flood-zone/paper-application-forms/mt-2>, with a fee of \$8,000 for review and processing, <https://www.fema.gov/flood-maps/change-your-flood-zone/status/flood-map-related-fees>. A LOMR would also require notification to adjacent property owners of any changes to the floodplain and BFE on their property as a result of this dredging project.

Other Requirements

Water Diversion, Section 401 WQC, and FMC applications all require a Fisheries Consultation and a Natural Diversity Database Determination. There is no cost associated with either of these consultations, but they may provide suggested conditions to protect species and habitat, which are typically incorporated as special conditions in any issued license. Coordination with the Remediation Division would be required to ensure any potentially contaminated sediments are properly handled and disposed of. The Eastern District contact is Tiziana.Shea@ct.gov. Side casting of sediments is not allowed in a FEMA floodplain.
