JoAnn Doyle
TOWN CLERK
CROMWELL, CT *pl*

LEGAL NOTICE
TOWN OF CROMWELL

The Town Council of the Town of Cromwell, Connecticut will hold a Public Hearing on Tuesday, March 26, 2024 at 4:30 p.m. in the Cromwell Town Hall, Council Chambers, located 41 West Street, Cromwell, CT regarding the proposed 2024-2025 (five year) Capital Improvement Program. Citizens may direct comments regarding the proposed Capital Improvement Program to mayor@cromwellct.com.

A copy of the Capital Improvement Program, in its entirety, is available for public inspection at the office of the Town Clerk, 41 West Street, Cromwell, Connecticut and will be posted online at www.cromwellct.com.

Dated at Cromwell, Connecticut this 13th day of March 2024.

James Demetriades
James Demetriades, Mayor
For the Town Council

Hartford Courant editions: Wednesday, March 13th and Wednesday, March 20th

PRIORITY RATING CRITERIA

1 (Highest) Expenditures that are required to complete or make fully usable a major public improvement; expenditures that would remedy a condition dangerous to the health, welfare and safety of the public or staff; expenditures that would provide energy saving devices.

2 Expenditures which would benefit the community; expenditures to maintain, preserve Town owned properties; expenditures which are considered proper for a progressive community in economic competition with other Towns; projects whose validity of planning and timing have been established.

3 Expenditures that are adequately planned, but not absolutely required by the community if budget restrictions prevail.

4 Deferred

TOWN OF CROMWELL
FIVE YEAR CAPITAL PLAN
REQUEST DETAIL

Department: Assessor's Office

Prepared by: Shawna Baron, Assessor

Fiscal Year of Request: 2026-2027

Date Prepared: January 12, 2024

Circle/Underline One:

Capital Purchase

Capital Improvement

Item: 2027 Revaluation

Description: The complete reappraisal and revaluation of all taxable and exempt Real Property within the corporate limits of the TOWN OF CROMWELL, CONNECTICUT. Included in this cost the cost of litigation of court cases and the extra supplies that are necessary due to the revaluation.

This revaluation will require all properties to be visited and inspected. This requirement is every 10 years by state statute.

Approximate Cost: \$350,000.

Need: This is a state mandatory expense. State Statutes requires Towns to revaluate every five years. The Town of Cromwell must perform a revaluation for the Grand List of 2027. The Town needs to have all money appropriated, by the 2026-2027 fiscal year to sign a contract in July of 2027. Anticipated cost for the 2027 revaluation is \$350,000.

TOWN OF CROMWELL

**FIVE YEAR CAPITAL PLAN
REQUEST DETAIL**

Department: Planning and Development

Prepared by: Stuart Popper

Fiscal Year of Request: 2025

Date Prepared: 1/25/2024

Circle/Underline One:

Capital Purchase

Capital Improvement

Item: Complete Streets Plan for the Town of Cromwell

Description: Complete Streets Plan is a plan for the design, construction, operation and maintenance of streets that enable safe access for all people who need to use them, including pedestrians, bicyclists, motorists and transit riders of all ages and abilities. The State of Connecticut Department of Transportation (DOT) is now requiring that any municipality applying for any DOT related grant programs, such as the Sidewalk Connectivity Grant Program to have a Complete Streets Plan.

Approximate Cost: \$100,000.00

Priority Rank (see criteria below): 1

1 (Highest)	Expenditures that are required to complete or make fully usable a major public improvement; expenditures that would remedy a condition dangerous to the health, welfare and safety of the public or staff; expenditures that would provide energy saving devices.
2	Expenditures which would benefit the community; expenditures to maintain, preserve Town owned properties; expenditures which are considered proper for a progressive community in economic competition with other Towns; projects whose validity of planning and timing have been established.
3	Expenditures that are adequately planned, but not absolutely required by the community if budget restrictions prevail.
4	Deferred

FIVE YEAR CAPITAL PLAN REQUEST DETAIL

Fiscal Year of Request: 2024-2025

Circle/Underline One:

Item: South Street @ Cronwell Creek - barrier gates

Description: Cromwell Creek frequently overtops South Street at the culvert conveying Cromwell Creek. Flood events require PW bring barricades and signage during these events to prevent vehicles from driving through the flooded roadway. With changes in climate these events are becoming more and more frequent. The gates would be permanently installed on either side of the flood area and could be quickly deployed as waters rise. Advance flip-down signage to be installed as well indicating road closed ahead.

Approximate Cost: \$30,000.00

Priority Rank (see criteria below): 1

1 (Highest)	Expenditures that are required to complete or make fully usable a major public improvement; expenditures that would remedy a condition dangerous to the health, welfare and safety of the public or staff; expenditures that would provide energy saving devices.
2	Expenditures which would benefit the community; expenditures to maintain, preserve Town owned properties; expenditures which are considered proper for a progressive community in economic competition with other Towns; projects whose validity of planning and timing have been established.

Prepared by: Jon Harriman

Fiscal Year of Request: 2024-2025

Date Prepared: 1/11/2024

Circle/Underline One:

Capital Improvement

Item: Engineering Design -- various drainage projects within the Town of Cromwell

Description: The Town Council commissioned an engineering study of problematic drainage issues within the Town of Cromwell. This request is the next step to get these projects to shovel-ready status and would include survey, engineering, hydraulic studies and permitting. Note: 1) Easement costs are not included in this scope -- easements would be assessed closer to the time of construction and after design/permits are complete. 2) This does not include the cost of construction of any of these projects.

Approximate Cost: \$970,000

Priority Rank (see criteria below): 1

1 (Highest)	Expenditures that are required to complete or make fully usable a major public improvement; expenditures that would remedy a condition dangerous to the health, welfare and safety of the public or staff; expenditures that would provide energy saving devices.

TOWN OF CROMWELL

FIVE YEAR CAPITAL PLAN
REQUEST DETAIL

Prepared by: John Gyllenhammer

Date Prepared: 01-10-2024

Department: Building Maintenance

Fiscal Year of Request: 2026/2027

Circle/Underline One: Capital Purchase Capital Improvement

Item: New Building Maintenance Garage

Description: New Heated Workshop for year-round use

Approximate Cost: \$ 200,000

NEED: Building maintenance has limited space to work, and no heated workshop to use during the winter, as the dump truck with the salter takes up the space during the winter. In addition, we cannot do much work and fabrication inside the town hall, due to noise, dust and fumes, which bother other town hall employees. I propose giving the two outside storage containers to the transfer station, and building a new, heated workshop in their place, about the same size as our existing garage. That way we can set up workbenches and woodworking equipment. We could have Carmine put in the foundation, Mario the framer from Hagel frame and roof it. The building maintenance department could do a lot of the other work, such as wiring, insulating, and installing doors and windows to reduce costs.

Priority Rank (see criteria below): 2

1 (Highest)	Expenditures that are required to complete or make fully usable a major public improvement; expenditures that would remedy a condition dangerous to the health, welfare and safety of the public or staff; expenditures that would provide energy saving devices.
2	Expenditures which would benefit the community; expenditures to maintain, preserve Town owned properties; expenditures which are considered proper for a progressive community in economic competition with other Towns; projects whose validity of planning and timing have been established.

TOWN OF CROMWELL

**FIVE YEAR CAPITAL PLAN
REQUEST DETAIL**

Prepared by: John Gyllenhammer

Department: Building Maintenance

Date Prepared: 1/1/24

Fiscal Year of Request: 2028/2029

Capital Improvement

Circle/Underline One: Capital Purchase

Item: Replace Town Hall Office Heating/Cooling Fan coil units with Central Air/Heat and New Ductwork

Description: Update Office Heating/Cooling

Approximate Cost: \$600,000

Reason: The fan coil units throughout the town hall and offices are very old. Every year it costs money to change over from heating to cooling, as well as making repairs to the fan motors and units. We run and maintain a huge chiller to cool the water that runs through these units for A/C. Repairs on the Chiller are very expensive. We also run two, large, gas boilers whose sole purpose is the heat water that runs to the fan coil units in the winter. I believe that Jon Harriman was told by OSHA that the fan coil units should be replaced eventually. These units leak at times and are often the source of odors and mold. If we install new rooftop HVAC units instead, we can eliminate the need for the boilers and chiller, as well as the two large electric pumps that run almost constantly to feed the water to the fan coil units. In addition, the piping system that feeds all of these fan coil units is cast iron and old. Cast iron tends to rust from the inside out, so once these pipes fail, there could be a bad flood inside of the town hall. Once a new HVAC system and ductwork is installed, the old cast iron pipes can be drained, capped, and abandoned in place. We will no longer have to worry about leaks, mold, and odors, and will be able to regulate the temperature of our offices year round, without the need of our HVAC vendor coming out to do a changeover.

Priority Rank (see criteria below): 1

1 (Highest)	Expenditures that are required to complete or make fully usable a major public improvement; expenditures that would remedy a condition dangerous to the health, welfare and safety of the public or staff; expenditures that would provide energy saving devices.
