Title: West Street Sidewalk Connectivity Project – Town of Cromwell, CT

Responses to Requests for Information

Question 1: To confirm one of the 3 components: the Qualifications for Engineering Services and the Fee are straightforward. We interpret the 2nd component – “Proposal for Engineering Services” – to include a Technical Proposal/Project Approach and Schedule based on the Scope of Services. Is this correct?

Response 1: This would be the correct approach. Please also note any added or deleted services your firm proposes to implement with respect to the Town’s proposed scope of services.

Question 2: Does the content of the “Proposal” include the Evaluation Criteria’s items A (Technical Approach) and B (Project Management).

Response 2: See response to question 1. The project management and project team should be identified in the qualifications package submission.
