Re: **Evergreen Road Sidewalk Connectivity Design**

Dear Property Owner/Resident:

In the spring of 2022 the Cromwell Town Council was presented with a request to extend sidewalks along Evergreen Road. The Town Council and Board of Finance voted to fund the design of these new sidewalks, and the Town has hired Lenard Engineering, Inc. (LEI) to perform the survey and design of this sidewalk.

The sidewalk design will consist of sidewalks on the south side of Evergreen starting at Old Colony Lane and head east to Washington Road. The first step in the design project will be for the survey crew to begin collecting field data. Starting as early as Friday June 3rd, you should see the LEI survey crew along your roadway frontage collecting the survey information to be used in the design.

We anticipate that the design will be presented in preliminary form at a public information meeting to be held in the future. At that meeting interested parties will be able to provide feedback on the design proposal and ask questions. In the mean time if you have any questions, please feel free to call me at the number provided below.

Very truly yours,

Jon Harriman, P.E.
Town Engineer
