### Town of Cromwell

NATHANIEL WHITE BUILDING 41 WEST STREET CROMWELL, CONNECTICUT 06416

December 15, 2009

The Honorable John Flanders First Selectman Town of Cromwell, Connecticut

The Comprehensive Annual Financial Report (CAFR) of the Town of Cromwell, Connecticut (the "Town") for the fiscal year ended June 30, 2009 is hereby submitted. The purpose of this report is to provide citizens, board members, investors, grantor agencies and other interested parties with reliable information about the Town. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Town. The intent is to provide reasonable assurance that the financial statements are free of any material misstatements.

The Town is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and U.S. Office of Management and Budget Circular A-133, Audits of State, Local Governments and Non-Profit Organizations. The Town is also required to undergo a Single Audit under Public Act 91-401 of the State of Connecticut. Information related to these single audits will be issued separately.

McGladrey & Pullen, LLP, have issued an unqualified ("clean") opinion on the Town of Cromwell's financial statements for the year ended June 30, 2009. The independent auditor's report is located at the front of the financial section of this report. Management's discussion and analysis (MD&A) immediately follow the independent auditor's report and provides a narrative overview of the basic financial statements. The MD&A is intended to complement this transmittal letter and should be read in conjunction with it.

This report includes all of the funds and accounts of the Town. It includes all activities controlled or dependent on the Town, which are identified as general, special revenue, capital project,

trust and agency funds and general fixed assets and general long-term debt accounts. The Cromwell Board of Education (grades K through 12) and the Cromwell Water Pollution Control Authority are considered departments of the Town and therefore, these activities are included in this report. The Cromwell Fire/Water District and the Mattabassett District are governmental entities having operations within the Town, but are separate legal entities. Their operations have therefore not been included in the Town's financial statements.

The Town provides a full range of municipal services including public safety (police, animal control and civil preparedness), public works (roads, building and grounds, solid waste management, engineering, motor pool and building inspections), health, sanitation, zoning compliance, senior citizen services, youth

services, social services, recreation, library, education and schools and general government administrative service. As a separate legal entity, the Cromwell Fire District provides fire, ambulance and water services.

### Economic Condition and Outlook

The Town comprises 13.5 square miles in the approximate geographical center of the State. It is 14 miles south of Hartford and 28 miles northeast of New Haven. The Connecticut River forms the eastern boundary of the Town. A major north/south highway, Interstate 91, with two Cromwell exits, runs through the Town. Also, Connecticut Routes 99, 372 and 3 bisect the Town. The Central Connecticut Expressway (Route 9) also enhances the Town's location as it connects I-95 in Old Saybrook, I-91 in Cromwell and I-84, the State's major east/west highway, in New Britain. Given the Town's location and accessibility to major roadways, the Town contributes a great deal of its residents to the area's labor force. On June 30, 2009, 93.3% of the Town's available labor force was employed. This compares favorably to the area rate of 91.9% and the State rate of 92.0%. The Town's per capita income was \$74,891, as reported in the State of Connecticut Fiscal Indicators, and its median household income was \$60,662, as reported by the Census Bureau's 2000 report.

The Town's position as a residential community is illustrated by the fact that approximately 68.9% of the October 2007 grand list was residential. The percentage of the 2006 grand list was 68.6%. Permits for twenty-three new residential units were issued this year. In the last ten years, the average number of new units per year is sixty. The Town has several new subdivisions in various stages of completion. Nine out of twelve residential subdivisions are 50% or more complete. Smith Farm subdivision is 90% complete, with eight out of nine units finished. Sydney Lane, off Coles Road, has one unit remaining, while Bruno Baroni's subdivision, on North Road, is finishing their last unit. Northbrook Estates has twenty-nine of thirty-six units complete. For the future, there are several projects that are in the beginning stages of the approval and construction progressing toward a total of fifteen housing units, and Newbury Estates on Woodside Road with ten, out of the available twenty, lots completed. Also, a large active adult subdivision continues development on Willowbrook Road (fifty-two units), with seventeen units complete and two more under construction.

As a percentage of the grand list, industrial and commercial property values are 16.8% compared to 17.2% last year. The construction of a new Lowe's Home Improvement Center is nearing completion, with an anticipated opening in the fall 2009. The full assessment will impact the 2009 grand list. Progress on the Coles Brook Industrial Park continues with five units out of seven completed. The current (active) project covers 13 acres out of 70 acres planned as a commercial park. With the environmental study required by the State completed, the real estate behind the existing development should become available for further commercial development. The Town has received two Small Town Economic Assistance Program (STEAP) grants from the State of Connecticut over the past five years to provide the environmental study, supplement the infrastructure in this area, and facilitate commercial development for the Town. Preliminary engineering to extend sewer service to this northern tier area is being finalized. Contract documents and design work to complete this infrastructure project will be underway shortly. Two commercial developments are also in progress on Route 372. Cobblestone Plaza on Route 372 has been substantially cleared with a CVS store completed, and construction beginning on a new Liberty Bank. Another commercial property at 181 Shunpike Road is being developed for medical and general office facilities.

With the residential component of the grand list consistently around 70%, regulatory boards and commissions, to the extent possible, should be evaluating the impact their decisions are having on the

grand list. It is hoped that the future growth in the grand list will be as a result of industrial/commercial development rather than residential. The balance of the grand list amounts to 14.3%, compared to 14.6% last year.

### **Major Initiatives**

### For the Year:

Major initiatives tend to be measured by large expenditures and/or project size and are usually thought of in terms of capital projects. However, presented below are the highlights of the Town's special programmatic and service initiatives followed by the explanation of capital initiatives.

### Programs and Services:

Finance Department:

Awarded the Town's nineteenth consecutive Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association.

Police:

Continued participation in State grant programs for drug enforcement and education, specialized traffic control and community policing projects.

Health Department:

Continued a free radon testing program and provided carbon monoxide test kits on a costshare/donation basis to town residents. Continued to monitor a mosquito control program.

Library:

Was awarded a \$1 million grant by the State of Connecticut for a renovation/expansion project, subject to grant funding by the State Bond Commission. This project is anticipated to be included in a referendum in the spring 2010.

Recreation:

Operated and/or supported fifty-two programs for both children and adults in the Town.

### Economic Development Commission:

Using State of Connecticut Economic Development Grants, continued to pursue the establishment of an industrial/commercial park in the northern part of Town. Design work for infrastructure improvements in this area is being completed. The Town applied for an additional Small Town Economic Assistance Program grant for the revitalization of the Downtown Historic area, to compliment and continue the work initiated by the grant received in 2006 for this purpose. These grants, along with bond funds received in June 2008, are being used to improve the streetscapes, lighting, parking, provide façade improvement incentives, and update the two memorial areas along Main Street.

### Human Services:

Continued all services to the seniors and youth of the Town. Provided support services and referrals to citizens of Cromwell in need. Received a State grant to increase transportation services to the Town's senior and handicapped citizens for a third year.

### Capital Projects:

### Public Works:

Continued the planning phase for the reconstruction of a portion of Coles Road. The replacement of the Christian Hill Road Bridge, which began in the fall 2007, was completed in the fall 2008. Expenditures for this project were reimbursed to the Town through Local Capital Improvement Program and Local Bridge grants. Design and construction was also started for the infrastructure improvements, funded through the Spring 2008 bond issue. The construction of a new passive recreation park and improvements to the Main Street/Downtown area, also included in the bond issue, are underway as well.

### Education:

The 2008 bond issue included renovations to the Elementary School, Middle School, and High School. Projects include roof replacements with solar panels on the elementary and middle schools, security enhancements and asbestos removal. These projects are all in progress.

### Parks & Recreation:

The Recreation Department used funds allocated through the 2008 bond issue to improve the quality of existing Town athletic fields and install irrigation systems.

### **Financial Information**

Management of the government is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the Town are protected from losses, theft, or misuse to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

### Single Audit

As a recipient of Federal financial assistance both directly and as passed through the State, the Town is responsible for maintaining an adequate internal control structure to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management. The same applies to financial assistance provided directly by the State.

As a part of the Town's single audits, tests are made to determine the adequacy of the internal control structure, including that portion related to Federal and State financial assistance programs, as well as to determine that the government has complied with applicable laws and regulations. The single audits for the fiscal year ended June 30, 2009 will be issued as separate reports. They will be filed with the Town Clerk for public inspection and will be filed with appropriate Federal and State agencies.

### **Budgeting Controls**

In addition to internal accounting controls, the Town maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget for the General Fund approved at the annual Town Meeting and as may be amended by the Boards of Selectmen and Finance or a Special Town Meeting during the fiscal year. The General Fund level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount)

is the departmental level. The Town maintains annual budgets for other funds, such as the Sidewalk Fund, Sewer Usage Fund, Sewer Assessment Fund, and the Dog Fund, as approved by special Town Meetings. The Town also maintains project length budgets for all capital projects approved by special Town Meetings.

To aid in budgetary control, the Town maintains an encumbrance accounting system to record obligations by line item for all budgets. Verification of funds availability is required prior to the issuance of purchase orders, which are recorded as encumbrances in the budgetary accounting system. Those encumbrances for goods and services that have not been received on June 30 of each year are reported as reservations of fund balance. Valid charges in the next fiscal year are paid from these encumbrances.

As demonstrated by the statements and schedules included in the financial section of this report, the Town continues to meet its responsibility for sound financial management.

### **General Fund Balance**

The unreserved, undesignated available fund balance decreased by \$190,327, or 4%, during the fiscal year. This amount, \$4,570,651 is equivalent to about 40 days of operating expenditures and is 10.99% of the adopted 2010 budget. Although there was a favorable result from budgetary operations, additional appropriations of \$921,131 and the use of \$282,750 toward the 2010 budget accounts for the net decrease in fund balance.

The Town of Cromwell's General Fund fund balance has historically been used to fund large capital projects and pre-fund reimbursement-type grant opportunities. During fiscal 2009, there were additional appropriations from fund balance, totaling \$921,131. \$62,000 was transferred for improvements to Willowbrook Road, \$500,000 to pre-fund the STEAP grant for the industrial/commercial development in the northern tier, and \$340,000 was transferred to the Capital/Nonrecurring Fund for various smaller capital projects. The improvements to Willowbrook Road will be reimbursed through the State's Local Capital Improvement Program (LoCIP). An additional \$19,131 was appropriated for two smaller unanticipated expenditures – an attorney fee associated with the collection of a delinquent tax account and an upgrade to the sound system in the meeting room. Additionally the fund balance provided \$82,750 to balance the fiscal 2010 budget and \$200,000 to pay down notes due during fiscal 2010 for a total of \$282,750. It is also anticipated that there will be an appropriation of \$300,000 for transfer to the CNR Fund during fiscal 2010. This is in keeping with the Board of Finance's historical practices and philosophy.

### **Debt Administration**

On June 30, 2009, the Town had a number of debt issues outstanding. Bonded indebtedness was \$28,660,000 with a final maturity date of June 2023. All the bonds are general obligations of the Town. However, sewer assessments collectable are dedicated to pay the sewer bonds outstanding which amount to \$470,000. Also, it is anticipated that \$399,557 from school building grant reimbursements will be applied to the Town's debt. Bonds that are authorized but unissued total \$17,110,370. The Cromwell High School and the Woodside Intermediate School projects account for 96% of this amount. It is anticipated that the additional authorized amount for the school projects (\$16,377,370) will not be needed as the bonds already issued have funded the building projects. The balance of the authorized but unissued amount is a result of the new projects authorized in May 2008.

In 2008, Standard & Poor's credit rating agency upgraded the Town of Cromwell's credit rating from AA- to a solid AA. Fitch Investors Service maintained their AA- rating.

According to State Statutes, total Town indebtedness may not exceed seven times the annual receipts from taxation or \$264,235,650 on June 30, 2009. There are also sub-limits by category for bonds. In total, bonded indebtedness on June 30, 2009 was 10.8% of statutory capacity.

On June 30, 2009, the ratio of gross bonded indebtedness to assessed value (grand list) was 2.20% and the net debt ratio was 2.17%. The amount of gross bonded indebtedness per capita was \$2,157 while the net bonded indebtedness per capita was \$2,128.

### Cash Management

Cash temporarily idle during the year was invested in demand deposits, time deposits, money market accounts, FIT's (Financial Investor's Trust) Governmental Money Market Fund and the State Treasurer's Investment Fund. The Pension Fund assets are held in trust supervised by the Town's Retirement Board and invested by various money managers selected by the Board. On June 30, 2009, the General Fund had cash and cash equivalents of \$5,980,909. There was \$8,238,170 in the Capital Projects Funds, primarily for the new infrastructure and facility improvement projects approved in the spring 2008. Cash and cash equivalents for all funds, was \$17,889,762.

During the fiscal year, all cash accounts and cash equivalents were held by qualified public depositories as defined by State Statutes. Section 36-386 of the Connecticut General Statutes requires that each depository maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upon the bank's risk based capital ratio. By itself, a bank's risk based capital ratio is an indication of the bank's strength.

### **Relevant Policies and Practices**

### **Economic Development Incentive Guidelines**

The Board of Selectmen approved guidelines to encourage the strategic growth and expansion of business, consistent with the Town of Cromwell's Plan of Conservation and Development (POCD). The objective of these guidelines are to stimulate local economic conditions to strengthen existing businesses and develop growth in strategic industries, provide for high quality, long term growth of the tax base, preserve and create jobs for local residents and accomplish community goals as stated in the current POCD. The Board of Selectmen, upon the recommendation of the First Selectman, must approve all incentives to new and existing businesses.

### Debt Management and Capital Planning

The Board of Selectmen approved a Debt Management and Capital Planning policy to be used in assessing and long range planning of the Town's capital needs, the determination of appropriate funding methods, and the management of debt and capital assets at a portfolio level. The policy outlines basic objectives for debt issuance and acceptable uses, as well as decision analysis for capital planning, oversight and monitoring. The Town of Cromwell established a Long Range Capital Planning committee in March 2007, consisting of two members from the Board of Selectmen, two members from the Board of Finance, the First Selectman, and the Finance Director.

This policy is to be used in conjunction with the existing Capital/Non-Recurring program, which is generally for capital or non-recurring requests not funded through the operating budget in excess of \$10,000.

### Independent Audit

The Town Charter requires an annual audit of books of account, financial records and transactions of all administrative departments of the Town by independent certified public accountants selected by the Board of Finance. This requirement has been complied with and the auditor's report has been included in this report.

### Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Cromwell, Connecticut for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2008. This was the nineteenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### Acknowledgments

The preparation of this comprehensive annual financial report on a timely basis was made possible by the efficient and dedicated service of the entire staff of the Finance Department, to whom I extend my sincere appreciation. I should also thank you, the Board of Selectmen, and the Board of Finance for their interest and support in planning and conducting the financial operations of the Town in a responsible and progressive manner.

Respectfully Submitted,

Marianne Streeter

### INDEPENDENT AUDITOR'S REPORT

To the Board of Finance Town of Cromwell Cromwell, Connecticut

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Cromwell, Connecticut (the "Town"), as of and for the year ended June 30, 2009, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Cromwell, Connecticut's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Cromwell, Connecticut, as of June 30, 2009, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 10 to the financial statements, the Town adopted the recognition and disclosure requirements of GASB Statement No. 45 as of July 1, 2008.

As described in Note 12 to the basic financial statements, the beginning net assets of Governmental Activities and the beginning fund balance of Governmental Funds as of July 1, 2008 have been restated for a correction of an error. We also audited the adjustments described in Note 12 that were applied to restate net assets and fund balances as of July 1, 2008. In our opinion, the adjustments are appropriate and have been properly applied.

In accordance with Government Auditing Standards, we have also issued our report dated December 15, 2009 on our consideration of the Town of Cromwell, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit

performed in accordance with "Government Auditing Standards" and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis, schedules of funding progress for pensions and other postemployment benefits and budgetary comparison schedule are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Cromwell, Connecticut's basic financial statements. The introductory section, the supplementary and combining fund statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary and combining fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Mc Hadrey & Pallen, LCP

New Haven, Connecticut December 15, 2009

### TOWN OF CROMWELL, CONNECTICUT MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2009

This discussion and analysis of the Town of Cromwell, Connecticut's (the Town) financial performance is provided by management as an overview of the Town's financial activities for the fiscal year ended June 30, 2009. Please read this MD&A in conjunction with the transmittal letter and the Town's financial statements.

### **Financial Highlights**

- While the Town's expenses, on a government-wide basis, exceeded the \$47 million generated in tax and other revenues for governmental programs by \$1 million, several large capital projects are underway and the Town was able to defer additional financing costs until Spring 2010. Total cost of all of the Town's programs was \$48 million with no new programs added this year.
- The General Fund reported a fund balance this year of \$5.3 million, or 12.6% of fiscal year 2010 budgeted revenues, with unreserved General Fund fund balance at \$4.6 million or 11%.
- Net assets of our governmental activities reflect a decrease of \$1.26 million, or 1.3% as compared to the prior year.
- The Town's debt obligation experienced a net decrease of approximately \$278K during the fiscal year. Existing general obligation debt decreased by \$2.5 million. However, the Town entered into a \$1 million capital lease for energy improvements to Town facilities. OPEB obligations were \$1 million in the current year and other liabilities increased by \$200K.

### **Overview of the Financial Statements**

This annual report consists of a series of financial statements. The statement of net assets and the statement of activities provide information about the activities of the Town as a whole and present a longer term view of the Town's finances. Fund financial statements are presented on pages 13-14. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government wide statements by providing information about the Town's most significant funds. The remaining statements provide financial information about activities for which the Town acts solely as a trustee or agent for the benefit of those outside of the government.

### **Government-Wide Financial Statements**

The analysis of the Town as a whole begins on pages 11-12. The statement of net assets and the statement of activities report information about the Town as a whole and about its activities for the current period. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's net assets and changes therein. The Town's net assets, the difference between assets and liabilities, are one way to measure the Town's financial health, or financial position. Over time, increases or decreases in the Town's net assets are one indicator of whether its

financial health is improving or deteriorating. The reader needs to consider other non-financial factors, however, such as changes in the Town's property tax base and the condition of the Town's capital assets, to assess the overall health of the Town.

In the statement of net assets and the statement of activities, the Town reports governmental activities as the Town's basic services, including education, public safety, public works, culture and recreation, human services and general administration. Property taxes, charges for services, and state and federal grants finance most of these activities.

### Fund Financial Statements

The fund financial statements can be found on pages 13-17. These provide detailed information about the most significant funds – not the Town as a whole. Some funds are required to be established by Charter. However, the Board of Finance establishes many other funds to help control and manage financial activities for particular purposes (like the Sewer Usage Fund and the Outside Services Fund) or to show that it is meeting legal responsibilities for using grants, and other money (like grants received for education from the State and Federal governments). The Town's funds are divided into two categories; governmental and fiduciary.

- Governmental Funds (pages 13-14) Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short term view of the Town's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are greater or fewer financial resources that can be spent in the near future to finance the Town's programs. The relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds is described in a reconciliation at the bottom of the fund financial statements.
- *Fiduciary Funds (pages 16-17)* The Town is the trustee, or fiduciary, for its employees' pension plans. All of the Town's fiduciary activities are reported in separate statements of fiduciary net assets and changes in fiduciary net assets. These activities are excluded from the Town's other financial statements because the Town cannot use these assets to finance its operations. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

### **Government-Wide Financial Analysis**

The Town's combined net assets decreased from a year ago, from \$96.3 million to \$95.0 million. The analysis below focuses on the net assets (Table 1) and changes in net assets (Table 2) of the Town's governmental activities.

TABLE 1 NET ASSET	S	
		ernmental tivities
	2009	2008, As Restated
Current and other assets Capital assets, net of accumulated depreciation Total assets	\$ 19,586,728 109,688,858 129,275,586	
Long-term debt outstanding Other liabilities Total liabilities	31,505,232 2,732,283 34,237,515	
Net Assets: Invested in capital assets, net of debt Restricted for: Perpetual care:	79,977,008	85,059,583
Expendable Nonexpendable Unrestricted	3,726 6,237 15,051,100	6,237 11,225,727
Total net assets	\$ 95,038,071	\$ 96,295,128

\* It should be noted that in the current year, capital assets and deferred revenue were restated due to a correction in CIP/land and deferred revenue.

Total net assets of the Town's governmental activities shows a decrease of 1.3%. Unrestricted net assets – the part of net assets that can be used to finance day to day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – shows an increase from \$11.2 million at June 30, 2008 to \$15.1 million at the end of this year.

This increase in unrestricted governmental net assets reflects a decrease in current assets primarily as a result of the use of funds for capital projects, offset by an increase in liabilities due to the recognition of the Town's liability for other post-employment benefits. The Town is considering the establishment of a trust fund to offset this liability. Long-term liabilities increased as a result of the issuance of a \$1 million capital lease for energy improvements at Town Hall, while existing debt decreased. Net assets invested in capital assets decreased by \$5.1 million, due to the completion of the new Woodside Intermediate School, new school security systems at the three other schools, and other capital improvements on existing buildings and infrastructure.

TABLE 2 CHANGE IN NET ASSETS

\* It should be noted that in the current year, capital assets and deferred revenue were restated due to a correction in CIP/land and deferred revenue.

The Town's total revenue was \$47 million. The total cost of all programs and services was \$48 million. Our analysis below considers the operations of governmental activities.

### **Governmental Activities**

On the revenue side, operating grants and contributions show a significant decrease due to the adjustment in fiscal year 2008 for the State of Connecticut "on-behalf" payments for the Teachers' Retirement System. A corresponding expense can be noted in Program Expenses for Education. Capital grants and contributions also reflect a decrease in State grants received for school construction projects. Major school construction projects are either completed (Cromwell High School renovations and Woodside Intermediate School building projects) or not yet in full swing (school roof replacement and asbestos removal project). Income from property taxes, which comprises 75.2% of Town revenues, and includes the current levy, prior year levies and interest, exceeded the original budget by \$134 thousand due to a high collection rate on the current levy. Unrestricted investment earnings reflects the general decrease in interest rates. In total, revenue was within the range of budgeted expectations.

Comparing total General Fund expenditures to budget resulted in a savings of \$812 thousand. According to our Charter, all Departments must finish the year within budget and this was accomplished. Some of the savings in comparing expenditures to the original budget were in General Government (\$220 thousand), including Employee Benefits (\$79 thousand), Economic Development Expenses (\$45 thousand) and Insurance Expenses (\$25 thousand), Public Works (\$197 thousand), Police Department (\$128 thousand), Education (\$84 thousand), and Debt Service at (\$96 thousand).

Table 3 presents the cost of each of the Town's five largest programs – education, general government, public works, public safety and culture and recreation – as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the Town's taxpayers by each of these functions.

TABLE 3

### Town Funds Financial Analysis

### **Governmental Funds**

The Board of Finance presented the fiscal 2009 budget to the Annual Town Meeting in three parts. The Town budget was \$13,021,375 or 4.32% more than the Town Meeting approved budget for 2008. Bonded Debt budget of \$3,795,690 represented an increase of \$726,421 or 19.14%. The Education budget was

\$24,952,222, an increase of 5.08%. In total, the total proposed budget, \$41,769,286, was 6.29% more than the previous year. The increase in the overall budget was primarily due to a new bond issue in 2008 for road and facility improvements, technology updates at the schools, and contractual obligations. The Annual Town Meeting was adjourned to referendum, at which time the General Government and Debt Service budgets were approved. The Board of Finance subsequently reduced the Board of Education budget by an additional \$32,000. At the second referendum, the Board of Education budget was approved. The Board of Finance then set the mill rate at 26.21, a decrease of 4.93 mills. The decrease was a result of the revalued grand list. The revaluation shifted values slightly toward the commercial sector. No existing programs were cut.

Total revenues and transfers for the year, based on generally accepted accounting principles were \$43,564,967. Expenditures and encumbrances on the same basis were \$44,042,372. The difference of \$477,405 decreased fund balance at fiscal year end to \$5.3 million.

The Town's General Fund Balance of \$5.3 million reported on page 13 differs from the General Fund's budgetary fund balance of \$4.8 million. This is principally because the budgetary fund balance does not include approximately \$409 thousand of outstanding encumbrances at year-end that are reported as expenditures for budgetary purposes. The Board of Finance also designated \$282,750 from General Fund fund balance to support the subsequent year's budget, reducing the undesignated General Fund fund balance to \$4.6 million. The Capital Projects Fund Balance, shown on page 13, reflects new capital projects approved at referendum in May 2008, with the projects ongoing. The Sewer Usage Fund and Other Governmental Funds fund balances remained stable.

### CAPITAL ASSET AND DEBT ADMINISTRATION

### Capital Assets

At June 30, 2009, the Town had \$109.7 million invested in a broad range of capital assets, including land, buildings, park facilities, vehicles and equipment, roads, bridges, and water and sewer lines – Table 4. This amount represents a slight increase (including additions and deductions) of \$500 thousand, or 0.5%, over last year.

TABLE 4			
CAPITAL ASSE	ETS		
		Governmei Activities (in m	
		2009	2008
Land	\$	7.9 \$	7.9
Buildings		52.3	28.8
Furniture, equipment and improvements		1.6	1.7
Infrastructure		45.0	45.6
Construction in progress		2.9	25.2
Total	\$	109.7 \$	109.2 *

\* It should be noted that in the current year, capital assets and deferred revenue were restated due to a correction in CIP/land and deferred revenue.

For the year, the major changes include:

**Buildings** – The Town has accepted the new Woodside Intermediate School, for grades three through five, as complete. This accounts for the increase in this category and a corresponding decrease in the Construction in Progress category.

Infrastructure – Depreciation accounts for the decrease in this category.

**Construction in progress** – This project has been formally accepted by the School Building Committee, the Board of Education, and the Board of Selectmen, therefore the assets have been moved from Construction in Progress to the Building category.

The Town's fiscal year 2009-10 capital budget calls for an expenditure of \$331,800 in local funds for capital projects and purchases. Major items include \$86,000 for a 16' mower, \$80,000 for an emergency generator at the middle school, and \$65,000 for a mason dump truck with plow.

More detailed information about the Town's capital assets is presented in Note 1 and Note 4 to the financial statements.

### Long-Term Debt

At June 30, 2009 the Town had \$28.7 million in bonds and notes outstanding versus \$31.1 million last year – a decrease of 8.0% or \$2.5 million – as shown in Table 5.

TABLE 5		
OUTSTANDING DEBT		
	 Governme Activitie	
	2009	2008
General Obligation Bonds	\$ 28.7 \$	31.1

The Town did not issue new debt during fiscal year 2008-2009. A bond issue is planned for the spring 2010 to fund a re-roofing project at two schools, as approved at the March 2008 referendum, along with additional infrastructure improvements to be proposed to the taxpayers in the spring 2010.

- The Town's general obligation bond rating was increased from AA- to AA from Standard & Poor's rating agency. Fitch rating agency has maintained their AA- rating.
- The State limits the amount of general obligation debt that towns can issue based on a formula determined under State Statutes based on type of debt and tax base. When the Town's outstanding general obligation debt is calculated in accordance with this formula it is significantly below this \$264 million State imposed limit.

Other obligations include accrued vacation pay and sick leave, OPEB obligations and capital leases. More detailed information about the Town's long term liabilities is presented in Note 7 to the financial statements.

### Economic Factors and Next Year's Budgets and Rates

The Town's Board of Finance considered many factors when setting the fiscal year 2009 budget tax rate. One of those factors is the economy. The unemployment rate in the Town for June 2009 stands at 6.7% versus 4.8% a year ago. This compares favorably with the Hartford Labor Market area's unemployment rate of 8.1% and the State rate of 8.0%.

According to the Bureau of Census, 2000, Per Capita Income in Cromwell was \$29,786 compared to the county rate of \$28,093 and the State rate of \$28,766. Median Household Income was \$60,662 for Cromwell versus \$60,607 for the county and \$52,758 for the State. The percent of families below poverty level was 3.2% for the Town. The county percentage was 4.7 and the State's was 7.2.

A General Fund budget of \$41,576,487 was approved by referendum. This budget was \$192,800, or 0.46% lower than the 2009 adopted budget. Debt service decreased by \$97 thousand, or 2.6%. This decrease was the result of paying down existing debt obligations and the pay-off the 1999 bond issue in the previous year. The Education portion of the budget increased by 0.2%. The Town budget decreased by \$141,145 or 1.1%. In order to fund this budget, the Board of Finance took the collection rate factor into consideration, maintaining it at 98.75%. They also used \$282,750 of available fund balance to offset small capital items and two self-funded capital projects. Also taken into consideration was a 1% increase to the grand list. The Board of Finance set the mill rate at 26.16 mills. This reflects a decrease of 0.05 mills, or 0.2%. There were no new programs added for fiscal year 2009-10 and all existing programs were funded.

### Contacting the Town's Financial Management

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, Town of Cromwell, 41 West Street, Cromwell, Connecticut 06416 or visit www.cromwellct.com.

### RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended June 30, 2009

Net change in fund balances - total governmental funds	\$	(1,366,6
Governmental funds report capital outlays as expenditures. In the statement of activities,		
the cost of those assets is allocated over their estimated useful lives and reported as		
depreciation expense. This is the amount by which capital outlay exceeded depreciation		
in the current period.		
Capital outlay		3,647,0
Disposal		(9,0
Depreciation expense		(3,211,9
Total		426,1
Revenues in the statement of activities that do not provide current financial resources are		
not reported as revenues in the funds, and revenues recognized in the funds are not reported		
in the statement of activities:		
Property tax receivable		62,08
Intergovernmental receivable		25,00
Sewer assessment and usage receivable		(654,78
Net pension asset		(20
Total		(567,90
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources		
to governmental funds, while the repayment of the principal of long-term debt consumes		
the current financial resources of governmental funds. Neither transaction has any effect		
on net assets. Also, governmental funds report the effect of issuance costs, premiums,		
discounts and similar items when debt is first issued, whereas these amounts are		
amortized and deferred in the statement of activities. The details of these differences in the		
treatment of long-term debt and related items are as follows:		
Debt issued or incurred:		
Issuance of capital lease		(1,051,85

## NOTES TO FINANCIAL STATEMENTS June 30, 2009

### Note 1. Summary of Significant Accounting Policies

The financial statements of the Town of Cromwell, Connecticut (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant policies of the Town are described below.

### Reporting Entity

The Town of Cromwell adopted a Town Charter which became effective in 1975. The form of government includes a Board of Selectmen consisting of a First Selectman and six other Selectmen, and a Board of Finance. The First Selectman is the Chief Administrative Officer in the Town. The legislative power of the Town is vested in a combination of Town Meeting and the Board of Selectmen. The Board of Selectmen must approve ordinances after a public hearing. The Board of Finance is responsible for presenting fiscal operating budgets for Town Meeting approval.

The Town has the power to incur indebtedness by issuing bonds or notes as provided by the Connecticut General Statutes.

The Town provides the following services: general government, public safety, public works and highways, parks, recreation, library, health and human services and education.

Accounting principles generally accepted in the United States of America require that the reporting entity include (1) the primary government, (2) organizations for which the primary government is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided by the Codification, Section 2100 has been considered and there are no agencies or entities which should be presented by the Town.

### **Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The Town has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The various funds included in the financial statements are described below:

### Governmental Funds

Governmental funds are those through which most governmental functions typically are financed.

The *General Fund* is the primary operating fund of the Town. This fund is used to account for all financial transactions and resources except those required to be accounted for in another fund. Revenues are derived primarily from property taxes, state and federal grants, licenses, permits, charges for service and interest income.

*Special Revenue Funds* are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

*Capital Project Funds* account for all financial resources used for the acquisition or construction of major capital facilities.

*Permanent Funds* are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the Town's programs.

#### Fiduciary Funds

Fiduciary funds are used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations and other governments. Fiduciary funds are not included in the government-wide statements. The fiduciary funds are as follows:

*Pension Trust Fund* accounts for the Town of Cromwell Retirement System.

Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operation. The School Activity Fund and the Contractor Bond Fund are the Town's agency funds.

### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, employee pension benefits and claims and judgments, are recorded only when payment is due (matured).

Property taxes, charges for services, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received.

Agency funds use the accrual basis of accounting, but have no measurement focus since they report only assets and liabilities.

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.

The *Sewer Usage Fund* accounts for the receipts and disbursements for the operations and maintenance of the Town's sewer system.

The *Capital Projects Fund* accounts for financial resources to be used for the acquisition or construction of major capital facilities and or infrastructure. Legal authorization for expenditures is provided by specific appropriations, bond ordinances and/or intergovernmental grant agreements.

Additionally, the Town reports the following fiduciary fund type:

The *Pension Trust Fund* accounts for the activities of the Town general employees, which accumulates resources for pension benefit payments to qualified Town employees.

The *Agency Funds* account for resources held by the Town in a purely custodial capacity. The Town maintains two agency funds, the School Activity Fund and the Contractor Bond Fund.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include property taxes.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

### Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and expenditures during the reporting period. Actual results could differ from those estimates.

#### Cash and Cash Equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

#### Investments

State statutes authorize the Town to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and certain other investments as described in Note 3.

Investments for the Town are reported at fair value using quoted market prices.

The Connecticut State Treasurer's Short-Term Investment Fund is an investment pool managed by the State of Connecticut Office of the State Treasurer. Investments must be made in instruments authorized by Connecticut General Statutes 3-27c through 3-27e. Investment guidelines are adopted by the State Treasurer. The fair value of the position in the pool is the same as the value of the pool shares.

#### Property Taxes

Property taxes are assessed as of October 1 and are levied the following July 1. Property tax bills are payable in two installments, July 1 and January 1, except for motor vehicles, which are due and payable July 1. Assessments for real and personal property, including motor vehicles, are computed at 70% of the market value.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

Property taxes receivable not expected to be collected during the available period are reflected as a deferred revenue in the fund financial statements. Interest on delinquent taxes accrues at a rate of 1.5% per month.

Liens are placed upon delinquent real estate accounts on June 30th in accordance with the provisions of the Connecticut General Statutes.

At the time the annual budget is adopted, the Board of Finance establishes the tax rate to be levied on the taxable property for the ensuing year.

### Allowance for Doubtful Accounts

Accounts receivable for the primary government are reported net of allowance for doubtful accounts. The allowance for doubtful accounts represents those accounts which are deemed uncollectible based on past collection history and on analysis of creditor's ability to pay. An amount of \$463,297 has been established as an allowance for uncollectible taxes. At June 30, 2009 this represents 53% of all property tax receivable.

#### Inventories and Prepaid Items

All inventories are stated at the lower of cost or market, determined on the first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### Capital Assets

Capital assets, which includes property, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

Capital assets of the Town are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	10-50
Public domain infrastructure	10-65
Vehicles and equipment	3-20

Capital outlay (assets) are reported as expenditures and no depreciation expense is reported in the governmental fund financial statements.

### Compensated Absences

Employees are paid by prescribed formula for absence due to vacation or sickness. Employees are generally not paid for vacation leave not taken, and vacation leave must be taken not later than the end of the next calendar year. Sick leave may be accumulated up to 120 days.

Sick leave and vacation leave expenditures are recognized in the governmental funds in the current year to the extent they are due. The liability for the remainder of the vested sick leave and vacation leave, and an estimate of the nonvested portion expected to be paid in future periods, is accounted for in the government-wide statement of net assets. The vesting method using current pay rates was used to calculate the liability.

### Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of any significant applicable bond premium or discount. Significant bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. Bond principal payments are recorded as expenditures. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

### Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances outstanding at year-end are reported as a reservation of fund balance as they do not constitute either expenditures or liabilities.

All other General Fund appropriations lapse at year-end.

### Pension Accounting

### Pension Trust Fund

Employee contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the Town has made a formal commitment to provide the contributions. Benefits and refunds are recognized when paid. Standalone statements are not issued.

#### Governmental Funds

Expenditures are recognized when they are paid or are expected to be paid with current available resources.

### Funding Policy

The Town funds the contributions to its defined benefit pension plan based on an actuarial valuation, which amount is included in the budget.

#### Fund Equity and Net Assets

In the government-wide financial statements, net assets are classified in the following categories:

*Invested in Capital Assets, Net of Related Debt* - This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduces this category.

*Restricted Net Assets* – This category represents the net assets of the Town, which are restricted by external parties (creditors, grantors, contributors or laws and regulations).

*Unrestricted Net Assets* - This category represents the net assets of the Town, which are not restricted for any project or other purpose. A deficit will require future funding.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

In the fund financial statements, fund balances are classified in three separate categories. The categories, and their general meanings, are as follows:

*Reserved fund balance* - indicates that portion of fund equity which has been legally segregated for specific purposes or not available for appropriation.

*Unreserved/Designated fund balance* - indicates that portion of fund equity for which the Town has made tentative plans.

*Unreserved/Undesignated fund balance* - indicates that portion of fund equity which is available for appropriation and expenditure in future periods, or if a deficit for which future funding will be required.

### **Related Organizations**

The Cromwell Fire District and its Water Division is a self-sustaining, non-profit, quasi-municipal water utility operating under legislative sanction from the State. As such, it issues bonds in its own name to finance its expansion programs and must retire these bonds, as well as pay all operating and maintenance costs, from the revenues obtained from the sale of water and from its tax assessing powers. The Fire District also provides fire fighting service to the Town of Cromwell.

Cromwell, along with the Town of Berlin and the City of New Britain, is a member of The Mattabassett District, which was organized under a special act of the 1961 session of the Connecticut General Assembly with separate and distinct powers. The sole function of the District is to provide sewer treatment services. A twelve person Board of Directors is appointed by the member towns with New Britain appointing the majority of members (7); Berlin appoints three members (3) and Cromwell appoints two members (2). The Board of Directors is responsible for hiring, firing, purchasing, administration, budget adoption and fiscal operations. The District may issue bonds in its own name. The District levies its annual assessment, which the Town is obligated to pay. The Town is responsible for pro-rata share of the debt, should the District. The possibility of the District defaulting on its debt liabilities is remote. The Town has no direct interest in assets or liabilities of the District.

## Note 2. Budgets and Budgetary Accounting

## **Budgetary Information**

An annual budget is legally adopted for the General Fund. The budget is prepared on a modified accrual basis.

An annual Town budget is adopted in accordance with Charter requirements. The First Selectman compiles the budget requests from the Town departments and agencies, with the exception of the Board of Education, and presents the budget to the Board of Selectmen. The Board of Selectmen reviews and deliberates on the budget and submits it for consideration to the Board of Finance. The Board of Education submits its budget estimates directly to the Board of Finance. The Finance Board, after its review process,

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

presents a recommended budget for Town Meeting approval. The Town Charter provides the manner and timetable by which the budget process is initiated for approval by Town Meeting.

The legal level of control is on the department level for the General Fund. The Board of Finance by resolution and only upon the recommendation of a majority of the entire Board of Selectman may make supplemental appropriations not to exceed one percent of the total annual appropriation of the fiscal year. Additional appropriations of more than one percent require Town Meeting approval. Additional appropriations for the fiscal year amounted to \$921,131.

The Town also establishes a legal budget on an annual basis for the Sewer Usage Fund which is a major governmental fund, and the Dog Fund, Sidewalk Fund and the Sewer Assessment Fund.

For budgetary purposes, encumbrances are recognized as a valid and proper charge against an appropriation in the year in which the purchase order, contract or other commitment is issued, and accordingly encumbrances outstanding at year end are reflected in budgetary reports as expenditures in the current year.

Unencumbered appropriations for the General Fund and the above Special Revenue Fund lapse at the end of the year.

Budgets for Special Revenue Funds which are utilized to account for specific grant programs are established in accordance with the requirements of the grantor agencies.

Legal authorization for Capital Projects expenditures is provided by specific appropriations, bond ordinances and/or intergovernmental grant agreements. Such appropriations do not lapse until the project is complete.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

## Note 3. Cash, Cash Equivalents and Investments

<u>Deposits</u>: The Town does not have a policy for deposits. The Town also does not have a custodial credit risk policy. However, as a practice, the Town follows State statutes. The State of Connecticut requires that each depository maintain segregated collateral in an amount equal to a defined percentage of its public deposits based upon the bank's risk based capital ratio.

<u>Investments</u>: The Town does not have a custodial credit risk policy for investments. The Town does have a policy for investments, but does not have a policy for related credit risk for debt securities, however, it is their practice to follow State statutes. The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: (1) obligations of the United States and its agencies (2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof; and (3) shares

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the Connecticut Short Term Investment Fund and the Tax Exempt Proceeds Fund.

The investments in the Pension Fund are covered by the Securities Investor Protection Corporation (SIPC) up to \$500,000, including \$100,000 of cash from sale or for purchase of investments, but not cash held solely for the purpose of earning interest. SIPC protects securities such as notes, stocks, bonds, debentures, certificates of deposit and money funds.

<u>Interest rate risk</u>: The Town does not have a policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, its practice is to structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools.

<u>Concentrations</u>: The Town does not have a policy that limits the amounts invested in any one issuer. However, its practice is to maintain a diversified portfolio to minimize the risk of loss resulting from overconcentration of assets in a specific issuer.

### Custodial Credit Risk

<u>Deposits</u>: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2009, \$4,088,326 of the Town's bank balance of \$5,324,154 was uninsured and uncollateralized.

<u>Investments</u>: This is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

Cash and investments of the Town consist of the following at June 30, 2009:

Cash and Cash Equivalents Deposits with financial institutions State of Connecticut Short-Term Investment Fund Total cash and cash equivalents	\$ 13,295,722 6,964,465 20,260,187
Investments	
Pension Trust Funds:

Government bonds	2,366,134
Foreign Bonds	157,368
Common stock	5,589,684
Preferred stock	4,774
Total pension investments	9,575,193
Total cash and investments	\$ 29,835,380

Cash and investments are classified in the accompanying financial statements as follows:

Statement of Net Assets	
Cash and cash equivalents	\$ 17,889,762
Fiduciary Funds	
Cash and cash equivalents	2,370,425
Investments	9,575,193
	11,945,618
Total cash and investments	\$ 29,835,380

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

<u>Interest rate risk</u>: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the Town's debt type investments to this risk using the segmented time distribution model is as follows:

			Investment Maturities (in Years)									
				Less than		1-5		5-10		Over		
		Fair Value		Fair Value		1 year		Years		Years		10 Years
Asset and Mortgage Backed	\$	29,415	\$	-	\$	-	\$	-	\$	29,415

Pooled Fixed Income		6,964,465		6,964,465		-		-		-		
Totals	\$	10,945,200	\$	7,549,160	\$	1,131,517	\$	2,034,900	\$	229,623		

<u>Credit Risk</u>: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. Presented below is the minimum rating as required for each debt type investment.

	М	sset and ortgage Backed	Corporate Bonds	(	Government Bonds	Foreign Bonds	Pooled Fixed Income

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

Depreciation expense was charged to functions/programs of the government as follows:

Governmental Activities:	
General government	\$ 120,269
Public safety	167,038
Public works	1,861,679
Culture and recreation	60,801
Human services	27,127
Education	975,027
Total depreciation expense – governmental activities	\$ 3,211,941

### **Construction Commitments**

The Town has active construction projects as of June 30, 2009. At year end the Town's commitments with contractors are as follows:

	S	pent-to-Date			
		(Including	Remaining		
Project	En	cumbrances)	(	Commitment	
CMS Asbestos Removal	\$	754,288	\$	45,712	
Geer Street Improvements	Ψ	212,843	Ψ	137,157	
LOCIP Coles Road		123,103		233	
Little League Stand		2,710		122,290	
School Roof		585,958		6,581,042	
Pierson Park Equipment		19,813		5,187	
Road Improvement		614,310		4,441,691	
School Security - Alarms		80,962		181,101	
Park Improvements		505,959		204,042	
STEAP Industrial Park		388,097		556,903	
Total	\$	3,288,043	\$	12,275,358	

The commitments are being financed through State grants, general obligation bonds and short-term debt.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

### Note 5. Interfund Receivables, Payables and Transfers

During the course of operations, transactions are processed through a fund on behalf of another fund. A summary of interfund balances as of June 30, 2009 is presented below:

	Due From ther Funds	Due To Other Funds		
General Fund	\$ \$ 162,207		-	
Capital Projects	-		14,664	
Non-Major Governmental Funds	 -		147,543	
Grand Total	\$ 162,207	\$	162,207	

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers during the year ended June 30, 2009 were as follows:

	 ansfers From Other Funds	Transfers To Other Funds		
General Fund	\$ 243,514	\$	1,213,900	
Capital Projects	1,335,000		-	
Sewer Usage	-		183,000	
Non-Major Governmental Funds	62,045		243,659	
Grand Total	\$ 1,640,559	\$	1,640,559	

Transfers to other funds from the General Fund represent monies used to fund projects and programs accounted for in the Capital Projects Fund and Non-Major Governmental Funds in accordance with budget authorizations.

Transfers into the General Fund are primarily revenue received in other Non-Major Funds to cover program and maintenance expenses incurred in the General Fund.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

### Note 6. Unearned Revenue/Deferred Revenue

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds and governmental activities also report unearned revenue in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred and unearned revenue reported in the governmental funds and governmental activities were as follows:

	Deferred			Unearned
		Revenues		Revenues
Property taxes	\$	556,375	\$	-
Special assessments and collections		392,554		-
Grant drawdowns prior to meeting all eligibility requirements		-		68,958
Sewer usage		239,301		887,376
Intergovernmental receivable		25,008		-
Total	\$	1,213,238	\$	956,334

# Note 7. Long-Term Debt

Long-term liability activity for the year ended June 30, 2009, was as follows:

	 Beginning Balance	Increases D		Increases		Increases		Increases		Increases		ncreases Decreases		Increases De		Increases De		Enc Decreases Bala		Due Within One Year
Bonds payable: General obligation bonds Less deferred amounts for	\$ 31,150,000	\$	-	\$	2,490,000	\$	28,660,000	\$ 2,410,000												
issuance discounts on refunding	(360,842)		-		(49,876)		(310,966)	-												
	 30,789,158		-		2,440,124		28,349,034	2,410,000

				\$ 28,660,000
Year Ending June 30,		Principal	Interest	Total
2010	\$	2,410,000	\$ 1,172,772	\$ 3,582,772
2011		2,425,000	1,082,746	3,507,746

2010	Ψ	2,110,000	Ψ	1,172,172	Ψ	0,002,112
2011		2,425,000		1,082,746		3,507,746
2012		2,250,000		983,697		3,233,697
2013		2,230,000		901,535		3,131,535
2014		2,175,000		821,403		2,996,403
2015-2019		9,995,000		2,884,789		12,879,789
2020-2023		7,175,000		743,747		7,918,747
	\$	28,660,000	\$	8,590,689	\$	37,250,689

On March 15, 2005, the Town issued \$7,700,000 in general obligation bonds to advance refund \$7,130,000 of outstanding 1991, 1996, 1999 and 2001 bonds. The net proceeds were used to purchase U.S. Government Securities. Those securities were deposited in an irrevocable trust with an escrow agent to

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

provide for all future debt service payments on the refunded bonds. As a result, the bonds are considered to be defeased. The balance of the defeased bonds outstanding at June 30, 2009 is \$6,280,000.

All debt service expenditures were funded by the General Fund except for \$293,205 which were recorded as expenditures in the Capital Projects Fund.

As explained in Note 1, the Cromwell Fire District (including the Water Division) has been empowered by the State of Connecticut to issue bonds in its own name. The Fire District had overlapping debt in the amount of \$1,430,000 as of June 30, 2009.

The Town's indebtedness does not exceed the legal debt limitations as required by the Connecticut General Statutes as reflected in the following schedule:

Category	Debt Limit	Net Indebtedness	Balance
General purpose	\$ 84,932,888	\$ 8,742,468	\$ 76,190,420
Schools	169,865,775	37,987,902	131,877,873
Sewers	141,554,813	470,000	141,084,813
Urban renewal	122,680,838	-	122,680,838
Pension deficit	113,243,850	-	113,243,850
	\$ 632,278,164	\$ 47,200,370	\$ 585,077,794

The total overall statutory debt limit for the Town is equal to seven times annual receipts from taxation or \$264,235,650.

A summary of bonds authorized but unissued is presented below:

	Amount			Bonds		Authorized
		Authorized		Issued		But Unissued
Town Infrastructure and Facility Improvements	\$	5,311,000	\$	5,056,000	\$	255,000
Recreation Athletic Facilities		825,000		710,000		115,000

Security Safety and General Site Renovations		1,277,000		914,000		363,000
	\$	51,481,670	\$	34,371,300	\$	17,110,370

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

### Capital Lease

At June 30, 2009, the Town and Board of Education is committed under leases for various equipment. These lease agreements qualify as capital leases for accounting purposes (title transfers at the beginning of the lease term) and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception. The equipment that is capitalized totals \$1,352,350.

Future minimum lease payments under the capital lease is as follows:

2010	\$ 97,444
2011	98,589
2012	98,590
2013	98,590
2014	98,590
2015-2024	 966,965
Total	1,458,768
Less amount representing interest	 (406,918)
	\$ 1,051,850

### Note 8. Risk Management

The Town is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Town carries commercial insurance for all risks of loss. There are no significant reductions in insurance coverage from the prior year. The amount of claim settlements has not exceeded insurance coverage for each of the past three years.

The Town currently is a member in Connecticut Interlocal Management Agency (CIRMA), a public entity risk pool established for the purpose of administering an interlocal risk management program pursuant to the provisions of Section 7-479a, et seq., of Connecticut General Statutes, for workers' compensation first dollar coverage.

The Workers' Compensation Pool provides statutory benefits pursuant to the provisions of the Connecticut Workers' Compensation Act. The coverage is subject to an insured loss retrospective rating plan and losses incurred in the coverage period will be evaluated at 18, 30, and 42 months after the effective date of coverage. The premium is subject to payroll audit at the close of the coverage period. CIRMA's Workers' Compensation Pool retains \$1,000,000 per occurrence.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

## Note 9. Employee Retirement Systems and Pension Plans

### Plan Description

The Town of Cromwell is the administrator of a single employer defined benefit plan (CPP) that covers the employees of the Town, except full-time policemen (covered by the Municipal Employees Retirement Fund) and certified teachers (covered by the State of Connecticut Teachers' Retirement System). The CPP is considered to be part of the Town of Cromwell's financial reporting entity and is included in the Town's financial reports as a pension trust fund. The Plan was established by Town Meeting. The CPP does not issue a standalone report.

Under the Plan, all full-time employees are eligible. Employees are 100 percent vested after ten years of service. The retirement benefit is calculated at 1-1/2% of average annual compensation during the highest three consecutive years of service multiplied by years of credited service. Normal retirement age is sixty-two or five years of service, whichever is later. If an employee leaves covered employment or dies before 10 years of service, accumulated employee contributions and related investment earnings are refunded.

The membership of the plan consisted of the following at July 1, 2008 the date of the latest actuarial valuation:

Retirees and beneficiaries currently receiving benefits	53
Terminated Plan members entitled to benefits but not yet receiving them	10
Terminated Plan members entitled to a refund but have elected to defer receipt	17
Current Plan members	182
Total	262

### Summary of Significant Accounting Policies, Plan Changes and Plan Asset Matters

Basis of Accounting: CPP financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized when due; investment income is recognized when earned. Expenses (benefits, administration and refunds of contributions) are recognized when incurred.

Method Used to Value Investments: All funds are invested in Wachovia Securities and are reported at fair value.

### Funding Policy

Each participant is required to contribute 2-1/2% of their salary to the CPP. The Town's funding policy provides for periodic employer contributions at actuarially determined amounts that are sufficient to accumulate assets to pay benefits when due. Contributions and benefits are defined and may be amended

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

by ordinance approved by the Town Meeting. Administrative costs are financed through General Fund appropriations.

### Annual Pension Cost and Net Pension Asset

The Town's annual pension cost and net pension asset for the Plan for the year ended June 30, 2009 were as follows:

Annual required contribution Adjustment to annual required contribution Interest on net pension asset	\$ 535,942 692 (427)
Annual pension cost Contributions made	536,207 535,942
Decrease in net pension asset Net pension asset, July 1, 2008	 265 (5,338)
Net pension asset, June 30, 2009	\$ (5,073)

The annual required contribution for the current year, \$535,942, was determined as part of the CPP actuarial valuation dated July 1, 2008.

The Board of Trustees establishes and may amend the contribution requirements of plan members and the Town. The Town's annual pension cost for the current year and related information for each plan is as follows:

Schedule of Employer Contributions					
Fiscal	Annual				
Year	Required Percentage				
Ended	(	Contribution	Contributed		
6/30/04 6/30/05 6/30/06 6/30/07 6/30/08 6/30/09	\$	237,637 388,573 395,213 489,073 508,573 535,942	100% 100% 100% 100% 100% 100%

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

### Municipal Employees' Retirement Fund

Full time policemen participate in the Municipal Employees' Retirement Fund (MERF), a cost-sharing multiple-employer public employee retirement system (PERS) established by the State of Connecticut and administered by the State Retirement Commission to provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to the employees and beneficiaries of participating municipalities. Chapter 113 Part II of the General Statutes of Connecticut, which can be amended by legislative action, establishes PERS benefits, member contribution rates and other plan provisions. MERF is considered to be a part of the State of Connecticut financial reporting entity and is included in the State's financial reports as a pension trust fund. Those reports may be obtained by writing to the State of Connecticut, Office of the State Comptroller, 55 Elm Street, Hartford, Connecticut 06106.

Funding Policy - Plan members are required by State Statute to contribute 2-1/4% of earnings upon which Social Security tax is paid plus 5% of earnings on which no Social Security tax is paid. Each participating municipality is required to contribute at an actuarially determined rate. The contribution requirements of the Town are established and may be amended by the State Retirement Commission. The current rate of contribution for the Town is 8% covered payroll. The Town's contribution to MERF for the years ended June 30, 2009, 2008 and 2007 were \$188,058, \$178,029 and \$173,500, respectively, equal to the required contributions for each year.

#### Connecticut State Teachers' Retirement System

The faculty and professional personnel of the Board of Education participate in a contributory defined benefit plan, established under Chapter 167a of the Connecticut General Statutes, which is administered by the Connecticut State Teachers' Retirement Board. A teacher is eligible to receive normal retirement benefits if he or she has attained age sixty and has accumulated twenty years of credited service in the public schools of Connecticut or has attained any age and has accumulated thirty-five years of credited service, at least twenty-five of which are service in the public schools of Connecticut. The State of Connecticut Teacher Retirement System is considered to be a part of the State of Connecticut financial reporting entity and is included in the State's financial reports as a pension trust fund. Those reports may be obtained by writing to the State of Connecticut, Office of the State Comptroller, 55 Elm Street, Hartford, Connecticut 06106.

Certain part-time and full-time certified teachers are eligible to participate in the plan and are required to contribute 7.25% of their annual earnings to the plan. The Town does not, and is not legally responsible to, contribute to the plan.

The State of Connecticut contributes based on actuarially determined amounts. The funding level was determined based on an actuarial valuation of the plan as a whole, which does not provide actuarial information on an individual city/town basis.

In addition, the Town has recognized revenues and expenditures for on-behalf payments for pension contributions paid directly to the Connecticut State Teachers' Retirement System by the State of Connecticut. Such on-behalf payments were approximately \$1,902,000 for the year ended June 30, 2009.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

## Note 10. Other Post-Employment Benefits

In addition to providing pension benefits, various Town employee agreements provide for a portion of health insurance coverage or subsidized coverage to retired employees. These benefits are negotiated through union contracts, personnel policies, and/or individual employment agreements.

### Post retirement benefits

From an accrual accounting perspective, the cost of postemployment healthcare benefits, like the cost of pension benefits, generally should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. In adopting the requirements of GASB Statement No. 45 during the year ended June 30, 2009, the Town recognizes the cost of postemployment healthcare in the year when the employee services are received, disclosed the accumulated liability from prior years, and provides information useful in assessing potential demands on the Town's future cash flows. Recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2009 liability.

### Plan description and funding policy

The Town provides post-retirement benefits for certain employees for current and future health and life insurance benefit expenses through a single-employer defined benefit plan. A bi-annual actuarial valuation is made to determine whether the contributions are sufficient to meet the plan obligations. The latest actuarial valuation was made July 1, 2007. The post-retirement plan does not issue stand-alone financial reports.

The contribution requirements of plan members and the Town are established and may be amended by the Town. The Town determines the required contribution using the Projected Unit Credit Method.

Membership in the plan consisted of the following at July 1, 2007, the date of the last actuarial valuation.

Retirees and beneficiaries receiving benefits	28
Active plan members	361
Total	389

The Town's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The actuarial accrued liability as of July 1, 2007 is estimated to be \$9,692,991. The Town's contributions represent payments made for premiums for insured individuals on a pay-as-you-go method.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation was as follows:

					Percentage of Annual OPEB		
	An	nual OPEB		Employer	Cost	Ν	let OPEB
Fiscal Year Ending		Cost Contributio		ontributions	Contributed	С	bligation
6/30/09	\$	1,147,154	\$	151,905	13.2%	\$	995,249

### **OPEB** Obligation

Annual required contribution	\$ 1,147,154
Interest on net pension obligation	-
Annual OPEB cost	1,147,154
Contributions made	151,905
Increase in net OPEB liability	995,249
Net OPEB obligation, beginning of year	-
Net OPEB obligation, end of year	\$ 995,249

Schedule of Funding Progress						
						UAAL as a
Actuarial	Actuarial	Actuarial			Covered	Percentage
Valuation	Value of	Accrued	Unfunded	Funded	Payroll	of Payroll
Date	Assets	Liability	AAL	Ratio	(Total)	Covered
7/1/2007	\$-	\$9,692,991	\$9,692,991	0.00%	\$20,192,000	48%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The information presented was determined as part of the actuarial valuation. Additional information as of the last actuarial valuations follows:

Valuation Date:	July 1, 2007
Actuarial Cost Method:	Projected Unit Credit
Asset Valuation Method:	Market Value
Amortization Method:	Level Percent of Pay
Remaining Amortization Period	30 Years
Actuarial Assumptions:

Salary increase rate	4.5%
Inflation rate	None
Health cost trend rates	Average annual healthcare cost trend rates are assumed to be as follows:

Decrease
8%
7%
6%
5%
4%
4%

### Note 11. Litigation and Contingencies

The Town of Cromwell, its officers, employees, boards and commissions are defendants in a number of lawsuits. It is the opinion of Town Officials that such pending litigation will not be finally determined so as to result individually or in the aggregate in a final judgment against the Town which would materially adversely affect its financial position.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

### Note 12. Restatement

The June 30, 2008 government-wide financial statements were restated due to an error in recording construction in progress and for a land purchase. The Sewer Usage Fund was restated due to a correction in earned deferred revenue. As a result, for the fiscal year beginning July 1, 2008, the following restatements were made to beginning net assets for governmental activities and fund balance of the Sewer Usage Fund:

	Sewer Usage Fund		
Fund Balance, June 30, 2008	\$	1,907,007	
Deduct: Recognition		(200,000)	
Fund Balance, as Restated, June 30, 2008	\$	1,707,007

Revenue Recognition	(200,000)	-	-	(200,000)
Net Assets, As Restated, June 30, 2008	\$ 96,295,128	\$ 85,059,583	\$ 9,818	\$ 11,225,727

The operating effect on the 2008 financial statements would have increased the change in net assets by \$1,798,757, which would have resulted in an increase in net assets of \$2,898,464 rather than the \$1,099,707 as previously reported.

# NOTES TO FINANCIAL STATEMENTS, Continued June 30, 2009

## Note 13. Pronouncements Issued, Not Yet Effective

The Governmental Accounting Standards Board (GASB) has issued several pronouncements that have effective dates in the future that may impact future financial presentations.

Management has not currently determined what, if any, impact implementation of the following statements may have on the financial statements of the Town:

- GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets* will be implemented by the Town as required by the GASB during the fiscal year ending June 30, 2010. The statement requires that all intangible assets not specifically excluded by its scope provisions be classified as capital assets. The statement also provides authoritative guidance that specifically addresses the nature of these intangible assets.
- GASB Statement Number 52, *Land and Other Real Estate Held as Investments by Endowments* will be implemented by the Town as required by the GASB during the fiscal year ending June 30, 2016. This Statement establishes consistent standards for the reporting of land and other real estate held as investments by essentially similar entities. It requires endowments to report their land and other real estate investments at fair value.
- GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments* will be implemented by the Town as required by the GASB during the fiscal year ending June 30, 2010. The statement is intended to improve how state and local governments report information about derivative instruments financial arrangements used by governments to manage specific risks or make investments in their financial statements.
- GASB Statement Number 54, *Fund Balance Reporting and Governmental Fund Type Definitions* will be implemented by the Town as required by the GASB during the fiscal year ending June 30, 2010. This statement establishes accounting and financial reporting standards for all governments that report governmental funds. This statement establishes the criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental fund types.
- GASB Statement Number 56, *Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards* will be implemented by the Town as required by the GASB during the fiscal year ending June 30, 2010. This Statement establishes accounting and financial reporting standards for related party transactions, subsequent events, and going concern considerations for all state and local governments.

Nonmajor Governmental Funds

# Nonmajor Governmental Funds

## Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are restricted to expenditures for specified purposes. The Special Revenue Funds utilize the modified accrual basis of accounting.

Fund	Funding Source	Function
Town Aid Road	State grant	General town road maintenance
Youth Services Grant	State grant	Town's Youth Services
		Department
Town Improvement Program	State grant	Project or improvements as
		determined by the Board of
		Selectmen
Sidewalk Program	Town and voluntary	Repairs and rebuilding of the
	contributions of citizens	present system and for the
		expansion of the system
Special Reserve	Town appropriation	Compensated absences and
		termination benefits
Public Donations Grant	Donations	Various departments
Outside Services	User fees	Payroll expense of Town and
		Board employees hired by
		outside parties
Dog License	Licenses and fees	Animal control program
School Cafeteria	Sale of food and grants	School Lunch and breakfast
		programs
Educational Grants	State and Federal	Special education programs
Open Space	Funds from developers	Reserving open space or
		acquiring additional land for
		recreational or agricultural
		purposes
Picnic Facilities Revolving	Receipt of fees	Town's picnic facilities
Drug Awareness and Education	State and local grants	Accounts for various monies
Drug Asset Forfeiture	Sale of assets	Account for monies received from
		sale of assets acquired during
		drug related arrests
Police Heart and Hypertension	Town appropriation	Expense for a police officer on this
Reserve		type of leave.
River Landing Park	Court judgment	Park improvements
Public Health Emergency Prep	State grant	Emergency assistance
Cemetery Trust	Income from investments	Care and maintenance of
		cemetery

## Permanent Funds

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes as categorized by the fund title. The Cemetery Trust is the Town's only permanent fund. It accounts for the principal amounts bequeathed to the Town with the stipulation that only the interest thereon may be expended on the care and maintenance of the cemetery.

**Capital Projects Funds** 

# **Capital Projects Funds**

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. Legal authorization for Capital Projects expenditures is provided by specific appropriations, bond ordinances and/or intergovernmental grant agreements. Such appropriations do not lapse until the project is complete or unused for three years.

Fiduciary Funds

# Agency Funds

Agency Funds are custodian in nature (assets equal liabilities) and do not involve measurement of results of operations.

- The School Activity Fund is an agency fund established to receive student funds and other program funds to promote the education and activities of students.
- The Contractor Bond Fund is an agency fund established to receive cash bonds posted by contractors, developers and others.

**Statistical Section** 

# Statistical Section

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- *Financial trends information* is intended to assist users in understanding and assessing how financial position has changed over time.
- *Revenue capacity information* is intended to assist users in understanding and assessing the factors affecting the ability to generate own-source revenues (property taxes, charges for services, etc.).
- *Debt capacity information* is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- *Demographic and economic information* is intended 1) to assist users in understanding the socioeconomic environment, and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- *Operating information* is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.

Sources: Unless otherwise noted, the information in the tables is derived from the comprehensive annual financial reports for the relevant year.

# DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF JUNE 30, 2009

Governmental Unit	OL	DEBT JTSTANDING	PERCENTAGE APPLICABLE	S E	ESTIMATED SHARES OF DIRECT AND RLAPPING DEBT
Overlapping debt: Cromwell Fire District	\$	1,430,000	100%	\$	1,430,000
Total direct debt		29,700,850			29,711,850
Total				\$	31,141,850

Source: Town of Cromwell Finance Department

\* The \$1,430,000 represents the outstanding general obligation bonds for the Fire District as of June 30, 2009. These bonds are retired from General Fund appropriations which are primarily financed from taxation. They are included as overlapping debt with the Town as they will impact the same tax base as the Town's debt.
