Re: Installation of sidewalks and intersection alignment changes

Dear Property Owner,

The West Street Connectivity Sidewalk Project contractor will be mobilizing equipment and manpower back to Cromwell next week to complete the project. We anticipate some work to begin during the week of April 1, 2024 and continue through the spring into early summer.

Our contractor, Martin Laviero Construction, Inc., will return to complete the sidewalks between Allen Road and Timber Hill Road and complete punch list items on work done in 2023.

Project plans can be found at www.cromwellct.com in the Engineering Department page, click the link on the left of the page named Projects, Information & Links. Residents/property owners will need to water areas where grass seed is applied to re-establish grass. Mailboxes will be reset as required.

Property owners are reminded that the Town is not responsible for damage to objects located within the Town Right-of-Way, such as underground dog fences, irrigation systems, etc. We would also like to remind property owners of the Town of Cromwell mailbox location policy, which can be found at www.cromwellct.com located in the Public Works Department page under Information & Forms.

It is the Town's policy to keep persons informed and involved when such projects are undertaken. It is important that the community share its concerns with us to assist in the project's development. Anyone interested in obtaining further information or providing input may do so by contacting the Public Works Department at 860-632-3420.

Very truly yours,
