Re: State Project No. 33-129
Willowbrook Road Reconstruction Project

Dear Property Owner/Resident:

The Preliminary design has been completed for the Town of Cromwell's Willowbrook Road Reconstruction Project. The proposed construction consists of minor widening, drainage improvements, pavement rehabilitation and sidewalk installation. The proposed construction will begin at the intersection of Willowbrook Road and Route 372 extending north along Willowbrook Road for approximately 1,800 feet. Further up Willowbrook Road, the cross-culvert carrying Willow Brook will be replaced along with approximately 350 feet of roadway reconstruction and new sidewalks.

Based upon the preliminary assessment, the construction cost will be approximately \$1,191,500. This project has been approved by the Connecticut Department of Transportation under the STP-Urban Program and 90% of the cost will be paid with State and Federal funds. The Town will be responsible for 10% of the project cost.

The Town of Cromwell will conduct a Public Informational Meeting on May 27, 2015 at 7:00p.m. in Room 224, Cromwell Town Hall, 41 West Street, Cromwell Connecticut. Deaf and hearing impaired persons wishing to attend this meeting and requiring an interpreter may make arrangements by contacting the Engineering Department at 860-632-3465 at least five working days prior to the meeting.

It is the Town of Cromwell and the State of Connecticut's policy to keep persons informed and involved when such projects are undertaken. It is important that the community share its concerns with us to assist in the project's development. Plans are available to view in the Public Works Department at Town Hall, 41 West Street Cromwell. Anyone interested in obtaining further information, providing input or requiring language assistance may do so by contacting the Engineering Department.

Very truly yours,

Jonathan Harriman, P.E.
Town Engineer
