

**TOWN OF CROMWELL - TOWN COUNCIL  
TOWN HALL COUNCIL CHAMBERS  
41 WEST STREET, CROMWELL, CT 06416  
SPECIAL MEETING MINUTES**

---

Thursday, January 18, 2024 - 4:30 p.m.

**Present:** Mayor James Demetriades, Julia Aurigemma, Stacy Dabrowski, Jack Henehan, Paula Luna, Al Waters

**Absent:** Brian Bonneau

**Also Present:** Town Manager Salvatore, Library Director Kara Canney, Chief Fred Sifodaskalakis, and Planning and Development Director Stuart Popper

**A. CALL TO ORDER**

Mayor Demetriades called the meeting to order at 4:30 p.m.

**B. CITIZEN COMMENTS**

None.

**C. DEPARTMENT PRESENTATIONS**

**1. Library**

Library Director Kara Canney was in attendance to give an overview of Library programs, services, and information. She presented and handed out the attached brochure. See Attachment A.

After her presentation, the Town Manager said that Director Canney is not your typical librarian. She does an outstanding job; always thinks outside the box and we often hear positive feedback about our library. Councilwoman Dabrowski agreed with the Town Manager and added that the numbers in the presentation reflect how well received by the public all the programs and services are.

**2. Police Department**

Police Chief Fred Sifodaskalakis was in attendance to present an overview of his Department to the Town Council. See Attachment B for his presentation. After his presentation, he thanked the Town Manager for being his rock the past 7 months. He has learned so much from him in his new role as Police Chief.

The Town Manager and Town Council thanked the Police Chief for his presentation. They expressed their excitement for the new recruits and complimented the Chief on completing his first contract negotiation and for the Police Department's community involvement.

**3. Planning and Development Department**

Director of Planning and Development Stuart Popper was in attendance to present an overview of his Department to the Town Council. He presented and handed out the attached information. See Attachment C.

In addition to his presentation, he informed the Council that he is also the Town's Economic Development Coordinator. He feels that the 12 years he has been here, and all the developments that have come to town reflect how well he has done in this role.

Town Manager Salvatore explained that prior to Stuart coming on board, things were bogged down and development was slow. The Town Manager continued by saying he does a great job and he thanked Stuart for all of his efforts.

The Town Council took a brief recess at 5:38 p.m.  
The Meeting reconvened at 5:46 p.m.

**D. POCD DISCUSSION**

Planning and Development Director Stuart Popper handed out and presented the attached POCD Summary. See Attachment D. He explained that this was forwarded to Town Council and to RiverCOG. In addition, there will be a public hearing on the Plan of Conservation and Development on February 20<sup>th</sup>.

A brief discussion was held after the presentation. The Council asked Director Popper what the next steps were. He replied that it next steps are to look at the development of the river front.

**E. OPEN SPACE**

Planning and Development Director Stuart Popper handed out and briefly presented the summary of the Town's Open Space Plan. See Attachment E. He also handed out the Town's Open Space Plan. See Attachment F.

**F. ADJOURN**

**MOTION** made by J. Aurigemma and **SECONDED** by P. Luna to adjourn.  
**All in favor.**

The meeting adjourned at 6:23 p.m.

Respectfully submitted,

  
Amanda M. Calve  
Secretary

# 2023 v 2016

# Non-Traditional Collection

During the winter of 2020 many libraries in our area were given a gift of \$3000 from the Community Foundation of Middlesex County with the only stipulation being that something fun be done with the money. This was the beginning of our non-traditional collection.

The Cromwell Police Department has an authorized staff of 29 sworn officers. The police department is currently staffed with 23 full time police officers and we have 4 recruits in the Connecticut Police Academy. I also currently have reserved 2 seats in the April academy with the hope of filling the final 2 positions. The department also has 9 full time civilian positions and 2 part time Animal Control Officers, 1 part time dispatcher and 2 reserve officers.

The Cromwell Police Department is responsible for the public safety for the Town of Cromwell. As all of you are aware, Cromwell is 13.5 square miles and is bordered to the north by Rocky Hill, to the east by Berlin, to the south by Middletown, and the east by the Connecticut River. We serve the resident population over 14,000 people with many more visitors. The department has handled over 15,000 incidents for the Town of Cromwell in 2023. These include criminal arrest, motor vehicle stops, property checks, and persons in crisis.

The agency's structure is currently a police chief, captain, detective sergeant, 6 patrol sergeants, 10 patrol officers, 1 school resource officer, 2 detectives, 1 youth detective, 1 administrative officer (accreditation), 1 K9, 6 full time dispatchers, 1 full time animal control officer, 1 administrative secretary, 2 full time records clerks and 2 part time animal control officers. When fully staffed, we would have 12 patrol officers, 2 school resource officers, 1 traffic officer, and 2 officers assigned to a late evening shift (6:00 PM to 3:15 AM). One of these officers was usually the K9 officer. Currently Bane is assigned with Sgt. Carlson on patrol. Cromwell PD is also one of a few departments who have a DRE (Drug Recognition Expert). Det. Perricone is an expert in this field and is used around the state for fatal accidents and other DUI related cases. The Chief of Police reports to the Town Manager.

- **Patrol/Dispatch:**

Patrol and dispatch are staffed 24 hours a day, 7 days a week. Our minimum staffing is two officers and one sergeant for each shift (Day 0730-1645, eves 1600-0115 and Mids 2300-0815 hours). Dispatch is always staffed with one dispatcher. Patrol and dispatch handle all calls that come into the police department. These calls range from motor vehicle accidents, medical calls, robberies, shop liftings, suspicious person or vehicles, stolen motor vehicles, etc. When a resident calls and needs our services, they will speak to a Cromwell Dispatcher and a Cromwell Police Officer will Respond.

- **Detective Division/SRO's:**

The detectives handle all serious complaints and lengthy investigations. These include robberies, burglaries, homicides, serious assaults, large financial loss, sexual assaults, court matters, juvenile cases, school incidents, background investigations for new employees, and death investigation.

- **Records:**

All police report's and investigations are released by the records division. The hours of the records department are 0900-1600 hours Monday through Friday. Records also handles all court paperwork, pistol permits, alarms, release of audio recordings, body camera video (after a sergeant spends time reviewing, redacting and making a copy) and many more ancillary duties for the department.

- **Animal Control Officer (This is a separate town department under the Chief of Police):**

The ACO and Assistant ACO handle all animal related calls in Cromwell. This could range from a roaming dog to animal abuse.

- **Regional Efforts:**

The Cromwell Police Department is a member of two regional teams and one regional forensic cell phone lab.

- CREST is our regional emergency response team which Cromwell has two officers assigned. One of our officers is an assistant team commander (Sgt. Parsons) and the other Det. Perricone is an explosive breacher.
- Mid-State Accident Reconstruction Team is our regional accident team for very serious/fatal motor vehicle accidents. We have two officers assigned to the team and both officers are accident reconstructionists. They both attended the three schools needed for this title.
- The regional forensic cell phone lab is in Middletown and we have one detective assigned. Det. Perlini has been certified in the extraction of cell phones for serious cases.

The agency has faced staffing challenges for many years, specifically with the ability to provide the desired amount of supervision, the desired amount of school resource officers and support functions (e.g. traffic) and the needed amount of personnel to create, implement and maintain projects, initiatives and improvements at the level and efficiency desired. The administration worked diligently with the Town Manager to address the agency needs. I have met with the Town Manager and discussed my department goals for 2024 as well as what we have accomplished in our 2023 goals.

**2023 Goals that were met are the following:**

- We achieved State of Connecticut Tier 1 Accreditation
- Purchased essential equipment for the department (optics for firearms, new MDT's in cruisers, continue updating department fleet vehicles as many vehicles have 100,000 plus driving mileage).
- Held many community events: Coffee with a Cop, Toy Drive, Paw pictures with Santa, Giving Tree, Trick 'r Trunk, events at Covenant Living, events at the Senior Center, read at daycare facilities, Back to School Supplies drive, to name a few.
- Continued to provide advance training for all officers (crime scene, photography, ARIDE (DUI), in-service training (every three years 40 hours), I have signed all supervisors up for specialized training presented by Attorney Daigle. Supervisors are given monthly online training specific for supervisors.
- Mandatory yearly training for all department members: (Firearms, Use of Force, Body Worn Cameras, Bloodborne Pathogen, Narcan, Body Cameras, Taser, OC, Baton, Pursuit Policy Training, Elder Abuse).

Maintaining authorized staffing levels have been a challenge because of past retirements, resignations and the lack of qualified applicants. The town continues to grow with several new construction projects ongoing. This could have a strain on the Department as calls for service will increase. The Department will need to evaluate this challenge in order to maintain the quality of service given to the community.

# Town of Cromwell Department of Planning and Development

Town Council Presentation

## Town Planner

The Town of Cromwell Planning Department is responsible for providing technical assistance and administrative services to the Conservation Commission, the Economic Development Commission, the Inland Wetlands and Watercourses Agency, the Planning and Zoning Commission, the Redevelopment Agency and the Zoning Board of Appeals. The Department is responsible for promoting the town as an attractive location for new businesses, retaining and expanding existing businesses and increasing the tax base and employment opportunities. The department staff provides technical assistance to residents, local businesses and developers on development related proposals and inquiries. The Department provides assistance to other town boards and commissions as needed. The Department is also responsible for preparing, submitting and administering various grant applications.

**Town of Cromwell**

**Planning and Development**

## **Development Compliance Officer**

The Development Compliance Officer is responsible for enforcing the Zoning Regulations, the Subdivision Regulations and the Inland Wetlands and Watercourse Agency Regulations.

## **Administrative Secretary**

The Administrative Secretary provides clerical support to The Department of Planning and Development.

**Town of Cromwell**

**Planning and Development**

## Planning and Zoning Commission

The objectives and purpose of the Planning and Zoning Commission are those set forth in Section 8-2 and Section 8-19 (as amended) of the Connecticut General Statutes. The Planning and Zoning Commission is responsible for protecting the public health, safety and welfare, and property values of the Town through the administration of the Subdivision and Zoning Regulations. The Commission reviews development applications (i.e. subdivision, special permit, site plan), and reviews and updates the subdivision and zoning regulations and the zoning map. The Commission is also responsible for preparing and updating the Plan of Conservation and Development.

## Inland Wetlands and Watercourses Agency

The Inland Wetlands and Watercourses Agency of the Town of Cromwell was established in accordance with an ordinance adopted January 17, 1974 and is empowered to implement the purposes and provisions of the Inland Wetland and Watercourses Act in the Town of Cromwell. The Agency shall issue permits with terms, conditions, limitations or modifications, or deny permits for regulated activities within the wetlands and upland review pursuant to Sections 22a-36 to 22a-45 of the Connecticut General Statutes. The Agency reviews and updates its regulations consistent with the State of Connecticut model inland wetlands regulations.

## Zoning Board of Appeals

In accordance with Section 8-6 (as amended) of the Connecticut General Statutes, the Zoning Board of Appeals has the following powers and duties: (1) To hear and decide appeals of any order, requirement or decision of the Zoning Enforcement Officer; (2) to hear and decide on "change of non-conforming use" special permit applications; (3) to grant variances from the zoning regulations "in harmony with their general purpose and intent and with due considerations for conserving the public health, safety, convenience, welfare and property values" where, due to conditions unique to the parcel, a literal enforcement of the zoning regulations would result in exceptional difficulty or unusual hardship. The ZBA is also responsible for approving Connecticut Division of Motor Vehicles "dealers and repairers" licenses in accordance with Section 14-54 of the Connecticut General Statutes.

## Conservation Commission

The objectives and purpose of the Conservation Commission are those set forth in Section 7-131 (as amended) of the Connecticut General Statutes. The Commission is responsible for addressing issues related to open space, conservation and farmland preservation. The Commission is responsible for reviewing and updating the Town's Open Space Plan and maintaining a record of all the open space in Town.

## Economic Development Commission

The objectives and purpose of the Economic Development Commission of the Town of Cromwell are those set forth in Section 7-136 (as amended) of the Connecticut General Statutes. The Commission is responsible for promoting commercial, business and industrial development in Cromwell.

## Redevelopment Agency

The Town of Cromwell Redevelopment Agency is responsible for promoting the redevelopment and revitalization of the limited available commercial lands and buildings in Cromwell in ways which implement the Town's Plan of Conservation and Development. The Agency works to achieve redevelopment and revitalization through partnerships with property owners, tenants, potential developers, and state, federal and regional government agencies. The Agency will pursue actions that will leverage private investment, increase property values, create quality development, and provide entrepreneurial and employment opportunities.

# Plan of Conservation and Development

Town Council Presentation

# The Plan of Conservation and Development

The POCD contains 4 parts:

- The Plan
- Appendix A – The Community Survey
- Appendix B – The Implementation

The appendix contains The following tables summarizing the goals, strategies, and action items identified in this Plan of Conservation and Development (POCD). The tables specify lead and additional support entities responsible for executing each of the action items. In addition, they provide a timeframe for the completion of each action item.

- Appendix C – The Data Set

# The Plan of Conservation and Development

The Data Set contains information on

- Demographics
- Land Use + Zoning
- Housing
- Economic Development
- Transportation
- Community Facilities + Infrastructure
- Parks, Recreation + Open Space
- Cultural + Historic Resources
- Natural Resources
- Climate Resilience + Sustainability

**Town of Cromwell**

**Planning and Development**

# ABOUT THE DATA

- This analysis is to serve as a snapshot of Cromwell today.
- It uses the most recent and publicly available data including but not limited to:
  - 2020 US Census
  - American Community Survey
  - CT Department of Economic and Community Development
  - CT Department of Transportation
  - CT Department of Labor
  - Partnership for Strong Communities
  - Others as noted
- Data sources as of July 2022.
- There may be errors and omissions in this preliminary analysis due to the nature of the data, however, all data points will be updated as the data becomes available and upon further review by the consultant and Town Staff.

# DEMOGRAPHICS TAKEAWAYS

- The Town's population has been stable over the last 10 years but is expected to increase over the next planning period.
- The Town's population is aging in place with recent growth in the 60 to 74 age group. However, the overall median age dipped slightly between 2010 and 2020.
- The Town has similar race and ethnicity characteristics as the County.
- The Town's current average household size is 2.35.
- The Town's population has slightly higher education attainment levels than the County and State and has higher median income levels.
- School enrollment rates are stable.

# HOUSING TAKEAWAYS

- Cromwell has a relatively diverse housing stock, compared to the Region with 25% being multi-family units.
- Net new housing permit activity has averaged about 23 per year since 2007 which is an extremely low construction rates. Several multi-family projects in expected in 2021-2023.
- Both home prices and rent prices tend to be naturally "affordable" but prices have risen in recent years and the average median sales price for a single-family unit in 2022 hit a high of \$336,250.
- Cromwell has a homeownership rate of 74%.
- Cost burden households tend to be seniors and renters.
- 28% of all Town households qualify as low income for protected affordable housing opportunities.

# ECONOMIC DEVELOPMENT TAKEAWAYS

- Cromwell's unemployment rate is similar to the County's and in improving since pandemic peak in 2020.
- Many Cromwell workers commute from outside of town
- Largest employment sectors are in Health Care & Social Assistance and Retail Trade.
- The Town is largely reliant on it's residential property tax base.
- The Town's debt per capita of \$2,233 is about 46.4% less than the State average.

# TRANSPORTATION & CIRCULATION TAKEAWAYS

- Cromwell has multiple State roadways and interstates that are maintained by the State and/or eligible for Federal funding & grants.
- Highest traffic volumes are on Route 372, near Cromwell Square and near I-91 and the on and off ramps to I-91.
- Crash hot spots include Route 372 (Berlin Rd./West St.) from Agawam Dr. to Route 3 (Shunpike Rd.); and Route 3 (Shunpike Rd.) from Route 372 (Berlin Rd.) to the southern Town line.
- The Town is served by CT Transit (limited) and Middletown Area Transit.
- Pedestrian and bicycle facilities and infrastructure are minimum.

# COMMUNITY FACILITIES & INFRASTRUCTURE TAKEAWAYS

- There are four public schools in the Cromwell School District, which educate approximately 90% of the total student population.
- Most of the Town is serviced by public sewer and water, with the remaining on private septic.
- Both the public sewer and public water systems are able to meet their current and anticipated future demands.
- Cromwell has limited available land for development and there are a number of environmental constraints to development on those remaining.
- New Middle School planned to start construction in FY23.

# NATURAL RESOURCE TAKEAWAYS

1. Cromwell lies within the subregional watershed basins of the Mattabasset and Connecticut Rivers (which is home to federally endangered species).
2. Water Quality
  - Aquifer Protection Area in the northeast covers the land area contributing to the public water supply.
  - 4/5 of assessed waterbodies identified as impaired due to poor water quality from pollutants and runoff.
3. Two major wetland ecosystems (Round and Boggy Meadows at the mouth of the Mattabasset, and Dead Mans Swamp along the CT River) support biodiversity, recharge groundwater and protect public health through improved water quality and enhanced ecosystem services.
4. From 1985 to 2015, forest cover and agricultural fields in Cromwell have decreased while developed areas and impervious surfaces have increased, leading to higher flood risks and stormwater runoff.
5. Cromwell's steep slopes provide natural habitats and improved water quality; If disturbed could experience erosion and loss of hydrological functionality.

# Open Space Plan

Town Council Presentation

Town of Cromwell \_\_\_\_\_ Planning and Development

# Open Space Plan

The Open Space Plan was prepared by the Conservation Commission and adopted on March 12, 2012.

**The plan includes:**

- Introduction
- Goals of the Cromwell Open Space Plan
- Open Space Parcels in Cromwell
- Trail System
- Options to Acquire Open Space

**Town of Cromwell**

**Planning and Development**

# Open Space Parcels in Cromwell

- **Publicly Owned; Restricted:**

Highest degree of protection from future development. The parcel is owned by either local, state, or federal government, and any development is prevented by a conservation easement, deed restriction, or some other legal documentation. In most cases there is public access

- **Privately Owned; Restricted:**

Lower degree of protection from future development. The parcel is owned by some private individual or entity, and any future development is prevented by a conservation easement, deed restriction, or some other legal document. In most cases there is no public access.

- **Publicly Owned; Not Restricted:**

Some protection from future development. The parcel is owned by the local, state, or federal government, and while future development is not expressly prohibited, such development could only take place after some form of public discussion. Limited public access.

- **Privately Owned; Not Restricted:**

No protection from future development. The parcel is owned by some private individual or entity, with no legal restriction on future development. No public access.

**The Town of Cromwell Open Space Plan contains the following amounts of Open Space:**

• **Publicly-Owned; Restricted (protected from development)**

Town of Cromwell - 316.94 acres

State of Connecticut - 680.45 acres

USDA - 30.71

**TOTAL - 1031.1 ACRES**

Number of Parcels - 27

• **Privately-Owned; Restricted (protected from development)**

Acreage - 252 acres

Number of Parcels - 9

• **Publicly-Owned; Not Restricted (not protected from development)**

Acreage 103.84 acres

Number of Parcels - 7

• **Privately-Owned; Not Restricted (not protected from development)**

Acreage 1,174.25 acres

Number of Parcels - 28

## 1.) Publicly-Owned; Restricted (protected from development):

## Chapter 1

### INTRODUCTION

#### A. Purpose of Plan

In accordance with the provisions of Connecticut General Statute 7-131a, the Cromwell Conservation Commission has formulated a comprehensive open space plan update, and recommends that it be adopted.

#### B. Background

This is Cromwell's open space plan and is intended to establish clear goals and objectives relating to the open space needs for the Town of Cromwell.

Open space planning in Cromwell is essential to provide for cleaner air, purer water, wildlife habitat and biodiversity, moderation of temperatures, flood storage, scenic vistas and recreation. Open space is most easily defined as land not yet developed for commercial or residential use and, for the most part, free of buildings. It also may be tracts which are generally inaccessible. Open space might be a field or forest, a public park, areas set aside for playing fields, a wetland, or a pocket park. It may be a developed parcel where open space could be created. Ownership may be either public or private. Open space puts the least stress on the natural environment, and protects the air, water, and other natural resources. By making Cromwell an attractive place to live, open space adds value to the quality of life by protecting natural resources and enhancing the aesthetic features of Cromwell.

During the past decade, Cromwell has experienced considerable development and population growth. Many new subdivisions have been constructed. As an increasing population puts growing pressure on our land, the open space over which we have some control is quickly disappearing. Supporting the long-range preservation of existing open space and identifying future preservation and conservation areas will ensure that we maintain a healthy balance with future growth and the open space needs of the Town.

#### C. Open Space Definitions

The term "open space land" means any area of land, including forest land, land designated as wetland under C.G.S. Section 22a-30, and farmland, the restriction of the use which would (1) maintain and enhance the conservation of natural or scenic resources, (2) protect natural streams or water supply, (3) promote conservation of soils, wetlands, beaches or tidal marshes, (4) enhance the value to the public of abutting or neighboring parks, forests, wildlife preserves, nature preserves or sanctuaries or other open spaces, (5) enhance public recreation opportunities, (6) preserve historic sites, or (7) promote orderly urban or suburban development.

The term "greenway" means any corridor of open space that protects natural resources and/or provides recreation. Greenways can be located along a waterway or other defining feature, such as a ridgeline, or along a man-made corridor, such as an abandoned right-of way, abandoned town road, or a canal. It can be a green space along a highway or around a village. Greenways can provide the vital "missing links" to connect existing protected areas, and to give people convenient access to the outdoors. A greenway can be as wide as a river valley or as narrow as an abandoned rail bed. Greenways serve many purposes. Rural greenways preserve natural habitat and wildlife migration routes, encourage restoration of environmentally valuable landscapes, and provide opportunities for recreation and education. In cities and suburbs, greenways can encompass natural or man-made features and can provide resource conservation, recreation, and transportation.

## Chapter 2

### GOALS OF THE CROMWELL OPEN SPACE PLAN

The goal of the Open Space Plan is to preserve, protect and enhance the quality of life in Cromwell via the maintenance and acquisition of undeveloped land.

The preservation or acquisition of carefully selected open spaces is a key component of maintaining Cromwell's rural character. A major objective of the Plan is to promote well informed planning and decision making so that growth in Cromwell can exist in harmony with the environment.

The benefits of protecting Cromwell's "small town character" will accrue to land owners in the form of increased land values and lower taxes. Open space actually increases other property values by making an attractive place to live and limiting pressures on Town services.

Open space adds value to the quality of life by protecting natural resources, enhancing appearances and providing recreational opportunities. This can be obtained in Cromwell through the implementation of the goals in this Open Space Plan.

The following list of goals has therefore been developed to provide guidance in preservation and acquisition of open areas in town:

1. Continue long-range protection of existing preserved open space areas.
2. Identify areas of privately-owned open space which can be added to existing committed open space and work with the owners of those lands to develop strategies to commit them.
3. Protect ground water within existing or potential public drinking water supply aquifers.
4. Obtain buffers to protect surface and subsurface water resources.
5. Implement the goals in the "Mattabessett River Watershed Management Plan" to protect and improve the water quality of that watershed.
6. Protect and improve water quality of the Connecticut River Watershed.
7. Protect and improve wildlife habitat and promote biodiversity in our region.
8. Promote the linkage of existing open space parcels to create greenways and wildlife corridors.
9. Protect ridgelines, roadscapes and scenic vistas.

10. Protect natural drainage ways.
11. Preserve farm lands.
12. Protect areas of archaeological, historical and cultural significance as well as unique and significant natural features.
13. Provide sites for active and passive recreation.
14. Preserve areas that provide opportunities for environmental education.
15. Create Master Plans for all Town-owned open space, including forested lands, to ensure that Town properties are managed to achieve open space goals.
16. Ensure adequate funding for open space protection.
17. Coordinate a comprehensive open space plan with the Cromwell Fire District Water Company to preserve and maintain their current and future land holdings and expand upon their overall passive and active recreational opportunities.
18. Amend the Zoning and/or Subdivision Regulations to allow for flexibility in density, bulk, or other requirements which would result in additional open space.

GOAL	TASKS	RESPONSIBLE AGENCY
1. Continue long-range protection of existing preserved open space areas.	1. Site inspections. 2. Enforce existing regulations.	Inland Wetlands Agency; Planning and Zoning Commission; Conservation Commission; owner.
2. Identify areas of privately-owned open space which can be added to existing committed open space and work with the owners of those lands to develop strategies to commit them.	1. Prepare inventory/map 2. Review POCD	Conservation Commission; Planning and Zoning Commission; Board of Selectmen.
3. Protect ground water within existing or potential public drinking water supply aquifers.	1. Enforce existing Aquifer Protection regulations. 2. Monitor activities in AP Zone.	Planning and Zoning Commission; Cromwell Fire District.
4. Obtain buffers to protect surface and subsurface water resources.	1. Enforce existing Aquifer Protection regulations. 2. Enforce upland review area regulations.	Planning and Zoning Commission; Inland Wetlands Agency.
5. Implement the goals in the "Mattabessett River Watershed Management Plan" to protect and improve the water quality of that watershed.	1. Initiate. 2. Include in new POCD.	Inland Wetlands Agency; Planning and Zoning Commission; Conservation Commission; Board of Selectmen.
6. Protect and improve water quality of the Connecticut River Watershed.	1. Initiate.	Inland Wetlands Agency; Planning and Zoning Commission
7. Protect and improve wildlife habitat and promote biodiversity in our region.	1. Increase public awareness. 2. Enforce existing Inland Wetland regulations.	Inland Wetlands Agency; Planning and Zoning Commission; Conservation Commission; Public Works; local environmental groups.
8. Promote the linkage of existing open space parcels to create greenways and wildlife corridors.	1. Write "Greenway Plan" 2. Review subdivision and site plan applications for suitability.	Conservation Commission; Planning and Zoning Commission
9. Protect ridgelines, roadscapes and scenic vistas.	1. Identify them. 2. Adopt protective regulations.	Planning and Zoning Commission; Conservation Commission.
10. Protect natural drainage ways.	1. Enforce existing regulations.	Inland Wetlands Agency; Planning and Zoning Commission; Public Works.

GOAL	TASKS	RESPONSIBLE AGENCY
11. Preserve farm lands.	1. Develop a farmland preservation program, to include identifying existing farms and creating fund to preserve important farms.	Farmland Preservation Committee; Planning and Zoning Commission.
12. Protect areas of archaeological, historical and cultural significance as well as unique and significant natural features.	1. Identify them. 2. Acquire or protect via conservation easements. 3. Strengthen existing regulations.	Planning and Zoning Commission; Conservation Commission; Board of Selectmen.
13. Provide sites for active and passive recreation.	1. Identify them. 2. Acquire or gain access to via easements.	Planning and Zoning Commission; Board of Selectmen; Park Board.
14. Preserve areas that provide opportunities for environmental education.	1. Identify. 2. Strengthen existing regulations.	Planning and Zoning Commission; Inland Wetlands Agency.
15. Create Master Plans for all Town-owned open space, including forested lands, to ensure that Town properties are managed to achieve open space goals.	1. Initiate.	Board of Selectmen.
16. Ensure adequate funding for open space protection.	1. Recommend annual funding during budget approval process. 2. Apply for grants. 3. Address this in Open Space Plan.	Conservation Commission; Board of Selectmen
17. Coordinate a comprehensive open space plan with the Cromwell Fire District Water Company to preserve and maintain their current and future land holdings and expand upon their overall passive and active recreational opportunities.	1. Initiate.	Conservation Commission and Fire District.
18. Amend the Zoning and/or Subdivision Regulations to allow for flexibility in density, bulk, or other requirements which would result in additional open space.	1. Amend Zoning Regulations and/or Subdivision Regulations.	Planning and Zoning Commission.

## Chapter 3

### OPEN SPACE PARCELS IN CROMWELL

This chapter contains a list and description of all significant open space parcels in Cromwell. These parcels are organized as follows:

- I. Publicly Owned; Restricted: Highest degree of protection from future development. The parcel is owned by either local, state, or federal government, and any development is prevented by a conservation easement, deed restriction, or some other legal documentation. In most cases there is public access.
- II. Privately Owned; Restricted: Lower degree of protection from future development. The parcel is owned by some private individual or entity, and any future development is prevented by a conservation easement, deed restriction, or some other legal document. In most cases there is no public access.
- III. Publicly Owned; Not Restricted: Some protection from future development. The parcel is owned by the local, state, or federal government, and while future development is not expressly prohibited, such development could only take place after some form of public discussion. Limited public access.
- IV. Privately Owned; Not Restricted: No protection from future development. The parcel is owned by some private individual or entity, with no legal restriction on future development. No public access.

<u>#</u>	<u>PIN #</u>	<u>COMMON NAME</u>	<u>STREET ADDRESS</u>
----------	--------------	--------------------	-----------------------

#### I. Publicly-Owned; Restricted (protected from development):

1. 00112200 Watrous Park Geer Street  
 Watrous Park is the largest active recreation facility in Cromwell. It is located adjacent to Cromwell Middle School and is accessed from Grove Street and Geer Street. The park encompasses approximately 29 acres. A significant area of it is still undeveloped, but it does contain a picnic pavilion, children's tot lot, basketball court, six tennis courts and two softball fields, one of which is lit. There is a walking trail through the wooded areas which is used for cross country skiing. The park also includes a small building used for maintenance and other recreational activities. The building has restrooms which are handicapped accessible.
2. 00111800 Pierson Park West Street  
 Pierson Park is the second principle active recreation facility in Cromwell. It is located on West Street adjacent to the downtown area. It encompasses 19.1 acres and includes the site of a former quarry which has been filled to be made useable. The facilities at the park include a partially lit baseball field which is also used for football, two softball fields, a tot lot, picnic pavilion, playscape and concession building with restrooms. There is also a rose garden.

3. 00065700 "Snow Park" Nursery Lane  
36 acres of former construction debris landfill, deeded to the Town by local developer for recreation use only. There is a man-made detention pond on the property. It has the potential for active or passive recreation.

4. Town Greens: Various Locations  
The Town maintains several small curbed and landscaped islands known as "town greens". Their primary purpose is the visual enhancement of the environment and to acknowledge military service of past Cromwell citizens, and offer passive recreation opportunities.

00113400	Valor Green	2.76 acres	Prospect Hill Road
05090000	Memorial Green	0.23 acres	Thomas Fritch Lane, south of
00113600	Legion Green	0.33 acres	South Park Place, south of
00112400		0.56	Hillside Road, south of
00112900		0.21	West Street, west of
05089000		0.16	Hillside Road, north of
00113000		0.13	Catherine Street, south of
00112800		0.91	St. John's Court, east of
00112700		0.11	Elm Road, east of
no PIN	Patriots Corner	0.25 acres	Wall Street, south of

5. 03050000 Evergreen Hill Park Evergreen Road  
The Town of Cromwell acquired the 55 acre Evergreen Hill Park through the Open Space and Watershed Land Acquisition Grant Program. The park provides passive recreation to the citizens of Cromwell. This property consists of pristine land featuring two small ponds, a small stream, forested land and open space. Additionally, the top of the hill provides a breathtaking panoramic view of Cromwell and the surrounding area.

6. 00113300 "Rotary Park" River Road  
1.28 acres Riverside park, with several benches.

7. 00004500 River Highlands State Park Field Road/Nooks Hill Road  
This park is comprised of 177 acres of State-owned property, located off Field Road and is bordered by the Connecticut River. Locally known as the "Blow Hole".

8. 00097900 Cromwell Meadows State Wildlife Management Area Hicksville Road  
DEEP-owned, protected in perpetuity from development and contains natural and recreational resources which are open to the public. 503.45 acres. This area is mostly marsh and wetlands along the Mattabesset River near the confluence of the Connecticut River. Its primary function is the conservation of natural resources. It offers some passive recreation activities such as hunting, fishing and hiking. Accessed via a driveway off Hicksville Road.

9. 00469000 Vacant Lot Nooks Hill Road  
30.71 acres of "flood plain forest". Property of US Department of Fish and Wildlife.

10. 05080000 Open Space at "Monnes Farms" Senator Drive  
2.37 acres of wooded upland and wetland, with stormwater detention pond. To be deeded to the Town upon resolution of a legal issue.

11. 00227900 Open Space at "Northwoods" 115 North Road  
43.98 acres of wooded upland and wetlands with stormwater detention pond, on the Mattabasset River. Open space parcel to be deeded to the Town when the road is complete and deeded to the Town.

12. 10405000 Open Space at "Washington Estates" Congress Drive  
4.3 acres; serves as a good buffer area between residential development and town owned properties of high school and playing fields. It is partially wooded and partially open meadow. The parcel containing a series of rudimentary developed trails is dry. It provides buffer zones and limited recreational (hiking) opportunities. Town-owned.

13. 05081000 Open Space at "Millennium" Millennium Drive  
14.49 acres of meadow; mostly upland but with some streams and wetlands, west of Route 9. Potential ballfields and playgrounds. Encumbered by gas line. Town-owned.

14. 05078000 Open Space at "Summerwind" Coles Road  
16.84 acres of upland on Winchester Way, with high, steep rock ledge on the eastern edge. Adjacent to "Evergreen Hill Park". Town-owned.

15. Open Space at "Cider Hill" on Evergreen Road  
10600000 12.6 acres 50R Willowbrook Road  
00550200 8.35 acres 135 Evergreen Road  
Two parcels: 12.6 acres of wooded hillside and stream corridor with some frontage on Willow Brook Road and Coles Road, and 8.35 acres of wooded hillside and wetlands with no frontage adjacent to the first parcel. Town-owned.

## II. Privately-Owned; Restricted (protected from development):

16. 00254200 Kelsey Cemetery North Road  
This small cemetery, located on North Road, was established in 1802 (or 1804) and is currently managed by a private association. It originally measured 165 feet east to west and 116 feet north to south but was enlarged in 1887 by an additional 660 feet on the north. Headstones date from the early 1800's to the present time. The cemetery is in a bucolic setting; however, there is significant background noise of continuous traffic on I-91.

17. 00381100 Old Burying Ground Ranney Street  
The Old Burying Ground, also known as Quarry Cemetery, is on Ranney Street. It was established in 1712 (or 1713) and extends 500 feet from north to south and 150 feet east to west. It contains an estimated 995 graves including 65 veterans of the Revolutionary War, the War of 1812, and the Civil War. The remains of African slaves rest in unmarked graves in the southeast

corner. At one time the outer edges of the cemetery were lined with 23 maple trees, each planted 35 feet apart. Some of the original maples remain.

18. 00108200 Hillside Road Cemetery Hillside Road  
Hillside Road: Established in 1855 and enlarged in 1905, West Cemetery and East Cemetery lie on opposite sides of Hillside Road and comprise slightly more than twelve acres of gently sloping land. The cemetery is active, and is currently managed by the Cromwell Hillside Cemetery Association.

19. 04120000 Open Space at "Mountainview Estates" 15 Jennifer Lane  
11.18 acres of very hilly, wooded open space. This parcel was identified as worthy of preservation by P&Z during the subdivision approval process due to the significant amount of wildlife (especially deer) known to inhabit the area. The parcel belongs to the Berlin Land Trust.

20. 04120000 Open Space at "Sovereign Ridge" 13 Sovereign Ridge  
Approximately 6.4 acres of private open space, owned and maintained by the Sovereign Ridge Homeowners' Association. There is a stone dust path through the parcel providing pedestrian access from a town road. The western portion of the parcel is hilly and suitable for sledding in the winter but not much other passive or active recreation. The eastern portion of the parcel contains an old man-made farm pond with many species of wildlife including some "species of special concern" as defined by the Connecticut Department of the Environment.

21. 00457800 Tournament Players Club 100 Field Road  
The Tournament Players Club of Connecticut owns approximately 158 acres of land used for general recreation. This land is privately owned and used by members or owners only. The Edgewood Country Club pond is located on this parcel. This pond provides habitat for a variety of wildlife. The development rights have been given to the Town of Cromwell.

22. Open Space at "North Brook Estates" on Pasco Hill Road  
00307300 3.65 acres Grassy Hill Road, south of  
00417600 38.18 4 Butternut Drive  
Approximately 40 acres of hilltop scenic vista with a diversity of habitat: field, woodland, wetlands, and natural swamp. Property of the homeowners association but protected by a conservation easement enforceable by the Town. This diverse habitat is important for wildlife, and may be an animal wildlife corridor passage. The land could be used for passive recreation.

23. 07250151 Open Space at "River Park Drive" Nooks Hill Road  
20.33 acres of open space, owned by the homeowners association.

---

### III. Publicly-Owned; Not Restricted (not protected from development):

24. 00321700 Former Mazzotta property 204 Main Street  
This large 24-acre parcel is a mix of wooded and open space. There are several perennial wet areas that would be described as a marsh. The eastern border has excellent views of the Connecticut River. It is high and dry and offers recreational opportunities. The western portion is ideal wildlife habitat.

25. 00113500 Vacant Parcel Nooks Hill/Prospect Hill Road  
Hilly, wooded 5.2 acre lot deeded to the Town as part of a residential subdivision in the 1980's.
26. 00245100 Cromwell Boat Launch River Road  
This town property is a sliver of land, 3.76 acres, between River Road and the Connecticut River a portion of which is leased to the Cromwell Outboard Association which is responsible for maintaining the ramp and club house.
27. Cromwell Fire District Property  
00082200 34.0 acres 105 Coles Road  
05085000 17.9 acres 202 Evergreen Road  
00109300 7.7 acres 711 Main Street
28. 00114400 Vacant Parcel North Side Evergreen Road  
Very wet, phragmites-covered 11.28 acre lot adjacent to Route 91.

---

**IV. Privately-Owned; Not Restricted (not protected from development):**

29. 00388000 Vacant Lot River Road  
This parcel is composed of four acres on River Road and bordered by the Connecticut River. Owned by Thomas Evans.
30. 00117500 Canoe Launch 24 Shunpike Road  
The owner of this commercial property abutting the Mattabasset River gave the Connecticut River Coastal Conservation Commission a license to install a canoe launch, accessible to the public.
31. 00327700 Holy Apostles Property 20 Prospect Hill Road  
13.38 acres of open meadow/field bordered by woodlands, with two buildings. Property connects to the Cromwell Fish and Game Club property. Very attractive vista. A nice spot for passive recreation, e.g. nature garden with benches. Diverse habitat for wildlife (have seen kestrels, monarch butterflies, etc. on property).
32. 00326900 Holy Apostles Seminary 33 Prospect Hill Road  
16.53 acres on the west side of Prospect Hill Road. This is a historic property. The land was granted to Deacon Thomas Ranney in 1742 and a 2 1/2 story house on a brownstone foundation was built in 1747. This house still stands today. An underground spring runs through the property and a 200 year old well still produces water. The property is registered with the National Department of Interior as an Olmsted designed landscape. Sawara Cypress, European Hornbeam and Carolina Silverbell trees dating 100 years old border the property. Over 80 varieties of trees exist including 100 year old native maples and oaks. Twenty trees are under the Connecticut Notable Tree Program. The only octagon building in town was built in 1854. Holy Apostles Seminary became owner of the property in 1956.
33. 00095200 D'Angelo Parcel 30 Willowbrook Road  
19.58 acres, divided by Coles Brook. This land is useful as a buffer to protect Willow Brook, and the stream habitat of plants and animals. It has potential as part of a Greenway in the area.

34. 00191100 Gardner Nurseries Geer Street  
130 acres. Active agricultural area used for nursery stock, which ties in with Watrous Park. It would be a great enhancement to Watrous for either passive or active recreation.
35. 00190500 Gardner Nurseries 652 Main Street  
25 acres, zoned for "Active Adult" development. Used for growing grow nursery stock and soy beans.
36. 00190400 Gardner Nurseries 650 Main Street  
31 acres, zoned for "Active Adult" development. Used for growing grow nursery stock and soy beans.
37. 00189800 Parcels adjacent to Watrous Park 675 Main Street  
These parcels consist of active agricultural areas (Millane's), as well as wooded portions which are wild plant and animal habitats. Located in the school district, they would be a great addition to Watrous Park, and could be used for active and passive recreation, as well as for educational purposes.
38. 00387900 Former "Tank Farm" 79 River Road  
9 acres of open, overgrown, north edge wetland on the east side of the railroad tracks. There is a commercial building. Recommended use is recreation due to proximity to Rotary Park. Now belongs to "River Road of Cromwell LLC".
39. 00210200 Private Home 170 Evergreen Road  
14.1 acres of wooded wetlands, across the street from Evergreen Hill Park.
40. 00388100 "Water's Edge LLC" 78 River Road  
12.6 acres. Largely undisturbed for past 70+ years. Contains old brownstone tailings piles from quarry operation, also contains old oil tanks and concrete cradles. Historical significance in brownstone contains swamp, upland woods, and riverfront floodplain forest. Beautiful piece of property for passive recreation, nature trail, walking, picnics on river, etc. (Also contains brownstone pier with channel marker for Connecticut River.
41. 00096800 Vacant lot 80 River Road  
5.4 wooded acres, property of CL&P.
42. 00096200 Vacant lot River Road  
18.2 wooded acres, property of CL&P.
43. 00095700 Northeast Utilities 676 Main Street  
CL&P-owned property behind Main Street. 104.81 acres. Historically an earth excavation operation. The western portion was recently approved for use as an overflow parking area for the annual golf tournament at the Tournament Players Club. Should be preserved as open space in order to protect the Town of Cromwell's water supply source by minimizing the risk of contamination from industrial, commercial, agricultural, and residential sources.

44. 00314900 Private Home and Farm 102 Court Street  
19.2 acres of open fields, nursery, hay lot, abundance of "edge meadow". Recommended for passive or active recreation.
45. 00348700 Private Home and Farm 27 North Road  
4.63 acres of active farm, ledge outcroppings, pasture, agricultural uses or recreation. Former "Amy's Udder Joy"
46. 00370200 Vacant land 419 Main Street  
Large, open meadow on approximately one-acre portion of 71 acre parcel, on corner of New Lane and West Street.
47. 05060000 Manke Property South side of Route 9  
11.76 acre land-locked piece of woods, largely undisturbed, value significant only to abutters. Visual buffer for highway.
48. 0429000 Cromwell Fish and Game Club Nooks Hill Road  
172.13 acres of wooded wetlands. The Cromwell Fish and Game Club owns three parcels which make up approximately 172 acres. This is a privately owned club. Members of the club use the land for general recreation such as hiking, fishing and hunting.
49. 00072600 Riverside Stables Nooks Hill Road  
89.83 acres of wooded wetlands and open meadow, with horse barn and riding corral.
50. 00072900 Private Home 136 Nooks Hill Road  
94.2 acres of wooded wetlands and open meadow.
51. 00452300 Private Property 138R Nooks Hill Road  
15.88 acres of meadow and over-grown nursery stock.
52. 00452300 Private Home/Farm 76 Nooks Hill Road  
47.65 acres of private residence and farm.
53. 00452300 Private Home/Farm 86 Nooks Hill Road  
6.46 acres of private residence and farm.
54. 00038800 Vacant Lot Nooks Hill Road  
8.61 acres of wooded wetlands.
55. 00042950 Vacant Lot Nooks Hill Road  
8.28 acres of wooded wetlands. Property of JBJC LLC.
56. 00460400 Vacant Lot Nooks Hill Road  
6.4 acres of wooded wetlands.

## Chapter 4

### TRAIL SYSTEM

The existing trail system in Cromwell is mainly used for walking, jogging, hiking and/or cross-country skiing. Trails are owned by the Town of Cromwell or the State of Connecticut. Trails on the Cromwell Fire District land are not open to the public. There are also private trails which are open with permission of the owners, such as at Wal-Mart. The goal of the Open Space Plan is to build these individual trails into a comprehensive trail system. Trails and greenways add to the rural character of Cromwell and provide safe and passive recreation. Trails are relatively inexpensive to obtain and maintain compared to other forms of open space and recreation areas.

The town may secure space for trails by accepting donations of land, obtaining easements from individual landowners, requiring open space set-asides in subdivisions, or purchasing land outright. Property owners who allow free trail access are protected from liability by state statute. Cromwell's existing trail system has been designed to provide north-south trails through the town. The Conservation Commission recommends that the town hire a consultant to create a trail map for Cromwell citizens.

The type of trail permitted in any area will depend on the ecology of the land itself. Others may be limited to one type of traffic or access according to the season. Protection of the environment and control of erosion will be stressed. In order to preserve natural features, to allow space for the trail to meander and to provide enjoyment and privacy, the Conservation Commission recommends that an area of at least 50 feet in width should be set aside.

Some of the trail system may take advantage of Cromwell's rural roads. These will serve as connections between trails, provide diversity and interest and help to vary distance and time of walks by establishing multiple access points to the system.

Trails provide significant opportunities for recreation and education as well as helping to preserve our natural landscape. Trails and greenways complement our open space program by providing links between open space parcels, corridors for wildlife and recreational opportunities in areas of more concentrated development. To enable citizens to enjoy the benefits of fresh air and exercise in natural surroundings it becomes increasingly important to build and maintain an easily accessible trail system.

To accomplish this, the Conservation Commission proposes that the town acquire access easements on several properties.

#### Lists of trails:

1. Along Mattabasset River, adjacent to Wal-Mart. Access is via Kirby Road.
2. The River Highlands state park. Access is via Field Road.
3. Watrous Park. Access is via Geer Street.
4. Cromwell Meadows State Wildlife Management Area. Access is via driveway on South Street.
5. Canoe Launch at 24 Shunpike Road (previously described).

## Chapter 5

### Options to Acquire Open Space

The five ways that Cromwell can acquire open space are:

1. Gifts from Landowners;
2. Open Space Set-asides under the Zoning and Subdivision Regulations;
3. Purchase;
4. State and Federal Programs;
5. Local and regional Land Trust Organizations

#### 1. Gifts from Landowners:

There are two kinds of gifts by which Cromwell can preserve its open space:

- a. Donation of Land by Landowner. An example of this is the "Snow Park" parcel on the west side of Coles Road that was given to the town by a developer.
- b. Donation of Development Rights or Conservation Easements by Landowner. Conservation easements or donated development rights can limit or prohibit development in perpetuity and/or protect trails and natural areas. There are no examples of this in Cromwell that we are aware of.

It should be noted that landowners who are interested in preserving their land as open space for future generations can achieve substantial estate, income and property tax savings by donating land to the Town of Cromwell. Donations of conservation easements and development easements are eligible for estate and income tax savings and are eligible for property tax savings in Cromwell if the value of the property is reduced.

#### 2. Open Space Set-asides under the Zoning and Subdivision Regulations:

##### a. Zoning Regulations:

Section 6.7 ("Conservation Subdivisions") of the Cromwell zoning regulations states that 50% of the land in any residential subdivision 15 acres or greater must be preserved as open space. The method of ownership and the function of this open space can range from active public use (such as a town-owned ball field or playground) or passive private use (such as a conservation easement on land owned by the individual homeowners and not open to the public). Examples of passive public open space include the area behind the "Summerwind" subdivision on Coles Road which is adjacent to Evergreen Hill Park and the land between Willow Brook Road and the "Cider Hill" subdivision on Evergreen Road. An example of private passive open space is in the "North Brook Estates" subdivision on Pasco Hill Road.

b. Subdivision Regulations:

Article 321 of the Cromwell subdivision regulations states that "Land for parks, playgrounds, recreation areas and open spaces shall be provided and reserved in each subdivision as deemed necessary and in locations deemed proper by the Commission." It goes on to state that "In determining the need for parks, playgrounds, recreation areas and open spaces, the Commission shall be guided by, but not limited to, a standard of ten percent of the land area of the subdivision, and shall take into consideration the size of the subdivision and any existing parks, playgrounds, recreation areas and open spaces in the neighborhood."

The Town has not taken advantage of this regulation, because any such open space would not be large enough to create and maintain a public ball field or playground. Instead, the Town has typically required subdivision developers to pay a "fee in lieu of open space" as authorized in Sec. 8-25 of the Connecticut General Statutes. This fee is 10% of the pre-development value of the land. As of 2007 the Town has collected over \$325,000 in open space fees.

3. Purchase:

In order to preserve more open space in Cromwell, the Town may have to purchase parcels. This may be expensive, but the economics of not buying the land may in the long run be more expensive to Cromwell taxpayers because of education and other service costs incurred when the residential zoned land is developed.

a. The following is a list of three purchase options available to Cromwell to protect its open space permanently.

1. Purchase of the Land. This is initially the most expensive option. The land is removed from the tax rolls, but on the other hand education and service costs of residences are not incurred. This method assures public access. Evergreen Hill Park is an example of this kind of purchase.

2. Purchase of the Land and Leaseback to the Owner with Restrictions. This method has been used by small towns experiencing suburban sprawl to preserve farm land.

3. Purchase of Development Rights or Conservation Easements. This method is less expensive than outright purchase and the property remains on the tax rolls. The owner retains all rights except the right to develop. The Cromwell Conservation Commission can recommend that assessments be lowered on land with development rights or easements.

b. The following methods to fund the purchase of open space land have been used successfully by other towns:

1. Land Acquisition Fund. This type of fund could be established to set aside money to be used toward future purchases of open space. It could also be used to purchase easements and to pay the costs associated with the purchase of land such as options, surveying and appraisals. The Cromwell Conservation Commission strongly recommends establishing a

Land Acquisition Fund and making annual contributions to it during the annual budget approval process.

2. Borrowing Money to Purchase Open Space. There are two ways the town can do this. It can choose to issue bonds or borrow from a bank. The advantage to the town of bonding is that, since the interest earned on municipal bonds are tax-exempt for investors, the town pays a lower interest rate on the loan. The town could go to a bank to borrow more quickly, but the interest would be higher because such a loan is not tax-exempt.

3. Fees in Lieu of Open Space: Cromwell is permitted under Connecticut state law to collect a fee in lieu of an open space set-aside in a residential subdivision. The Planning and Zoning Commission can charge the developer a fee if the Commission finds that land from an open space set-aside would not be desirable or appropriate. Payments collected under this regulation could be placed in the Land Acquisition Fund which would be used to acquire additional land for open space.

4. Back Taxes. Properties with significant open space value and substantial back taxes owed can be acquired by the town in agreement with the owners. The owner may agree to deed the land to the town in exchange for forgiveness of the taxes owed on the property.

#### 4. State and Federal Programs:

##### a. State of Connecticut:

1. The Open Space and Watershed Land Acquisition Grant Program. This program provides financial assistance to municipalities and nonprofit land conservation organizations to acquire land for open space and to water companies to acquire land to be classified as Class I or Class II water supply property. A grant under this program helped acquire Evergreen Hill Park.

Grants may be for the purchase of land that is: 1) valuable for recreation, forestry, fishing, conservation of wildlife or natural resources; 2) a prime natural feature of the state's landscape; 3) habitat for native plant or animal species listed as threatened, endangered or of special concern; 4) a relatively undisturbed outstanding example of a native ecological community which is uncommon; 5) important for enhancing and conserving water quality; 6) valuable for preserving local agricultural heritage; or 7) eligible to be classified as Class I or Class II watershed land.

The Department of Energy and Environmental Protection (DEEP), Division of Land Acquisition and Management, 79 Elm Street, Hartford, Connecticut 06106 (860) 424-3081 is the contact for this program.

2. The Recreation and Natural Heritage Trust Program. This program was created by the Legislature in 1986 in order to help preserve Connecticut's natural heritage. It is the DEEP's primary program for acquiring land to expand the state's system of parks, forests, wildlife, and other natural open spaces. The DEEP manages the acquisition of land of statewide

significance that represents the ecological and cultural diversity of Connecticut, with a focus on unique features such as rivers, mountains, rare natural communities, scenic qualities, historic significance, connections to other protected land, and access to water.

To ensure the property is compatible with the goals of the Recreation and Natural Heritage Trust Program, each potential acquisition is evaluated using a review system. It should possess one or more of the following attributes: 1) high quality recreation opportunities, either active or passive; 2) a resource offering conservation to a unique, natural area or protection of a species considered threatened, endangered, or of special concern; and 3) an example of a prime, natural feature of the Connecticut landscape.

The Department of Energy and Environmental Protection (DEEP), Division of Land Acquisition and Management, 79 Elm Street, Hartford, Connecticut 06106 (860) 424-3016 is the contact for this program.

3. Farmland Preservation Program. The Connecticut Department of Agriculture has a fund, begun in 1978, to purchase development rights of farms. Farms that use the program remain in private hands, and the owner has every traditional right of ownership except the right to develop or subdivide the land. Priority in the program is given to farms that are near other farms so as to stabilize farming regions.

The Department of Agriculture Farmland Preservation Program, 165 Capitol Avenue, Hartford, CT 06106 (860) 713-2511 is the contact for this program.

4. Open Space Grants for Urban Green and Community Gardens. The community garden grants promote the enhancement and beautification of the states urban areas, builds sense of community and fosters interest in the environment, gardening, conservation, and wildlife.

b. Federal Government:

1. Surface Transportation Program - Transportation Enhancement (TE) Program. The Midstate Regional Planning Agency administers funding for municipal projects under the federal Surface Transportation Program - Transportation Enhancement (TE) Program. The focus of the TE Program is to provide funding for innovative, community-based projects to enhance the transportation system by improving the transportation experience in and through local communities. The monies are to be expended for non-traditional type projects including historic preservation transportation facilities and museums, landscaping and beautification, scenic highways, bike and pedestrian facilities and education, rail corridors preservation, and outdoor advertising control.

5. Local and Regional Land Trusts:

The Conservation Commission may make recommendations for the purchase of open space parcels to various conservation organizations such as the Nature Conservancy, Middlesex County Land Trust, and/or the Berlin Land Trust.
